Members of the Committee

USD 329 stands opposed to House Bill 2395.

I'm writing to voice my opposition against the latest school funding bill 2395, due to the following reasons:

1. Doesn't meet the Kansas State Constitution's language as suitable or equitable as determined 3 times in Kansas State Supreme Court rulings.

2. Doesn't meet the 92% state aid funding for Special Education-which hasn't been met yet.

3. Allows private school tuition with state funding. Nothing in the constitution provides state funding for private school tuition.

4. Cash balances of 15% of our General Fund. That would mean we'd have to spend down over $1 million in cash balances. Right now we have approximately 2 months of cash balances/savings ($1.5 million-17.6% of all our total budget including transfers)-almost all fiscally responsible financial advisers tell you to have at least 3-6 months of expenses in savings. We need the cash balances for cash flow-we don't get school meal payments and state aid till September and are ordering/need to pay for food in August. We don't get SPED state aid till October and need to pay our SPED cooperative assessments. We've moved allowable General Fund maintenance/custodial salaries to Capital Outlay and need the CO money cash to pay them-if we don't have the cash balances we can't meet our payroll obligations.
