AN ACT concerning utilities; relating to electric transmission lines; definition of transmission line; state corporation commission, permit for siting of electric transmission lines; amending K.S.A. 66-1,177 and 66-1,178 and repealing the existing sections.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 66-1,177 is hereby amended to read as follows: 66-1,177. As used in this act, the following terms shall have the meanings ascribed to them herein:

(a) "Electric utility" means every public utility, as defined by K.S.A. 66-104, which owns, controls, operates or manages any equipment, plant or generating machinery for the production, transmission, delivery or furnishing, of electricity or electric power;

(b) "Electric transmission lines" means any line or extension of a line which is at least five (5) miles one mile in length and which is used for the bulk transfer of two hundred thirty (230) 110 kilovolts or more of electricity;

(c) "Commission" means the state corporation commission.

Sec. 2. K.S.A. 66-1,178 is hereby amended to read as follows: 66-1,178. (a) No electric utility may begin shall acquire a siting permit from the commission prior to beginning site preparation for or construction of an electric transmission line, or exercise or exercising the right of eminent domain to acquire any interest in land in connection with the site preparation for a the construction of any such electric transmission line without first acquiring a siting permit from the commission.

(2) Prior to an electric utility upgrading an existing electric line to an electric transmission line or siting an electric transmission line on land acquired through eminent domain that was originally not intended for an electric transmission line, such utility shall acquire a siting permit from the commission prior to beginning the site preparation for such electric transmission line.

(3) Whenever any electric utility desires to obtain—such a siting permit, the utility shall file an application with the commission setting forth therein that the utility proposes to construct an electric transmission line and specifying:

(A) The proposed location thereof;
the names and addresses of the landowners of record whose land or interest therein is proposed to be acquired in connection with the construction of or is located within 660 feet of the center line of the easement where the electric transmission line is proposed to be located; and

such other information as may be required by the commission.

(b) Upon the filing of an application pursuant to subsection (a), the commission shall fix a time for a public hearing on such application, which shall be not more than 90 days after the date the application was filed, to determine the necessity for and the reasonableness of the location of the proposed electric transmission line. The commission shall fix the place for hearing, which shall be in one of the counties through which the electric transmission line is proposed to traverse.

(c) The commission may conduct an evidentiary hearing on an application filed pursuant to this section at such time and place as the commission deems appropriate.

(d) The commission shall issue a final order on the application within 120 days after the date the application was filed.

Sec. 3. K.S.A. 66-1,177 and 66-1,178 are hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its publication in the statute book.
