conservation fee fund created by K.S.A. 55-143, and amendments thereto.
  (h) The commission shall remit all moneys received pursuant to
subsections (d)(3) and (d)(4) to the state treasurer in accordance with the

the state treasury to the credit of the well plugging assurance fund
abandoned oil and gas well fund established pursuant to K.S.A. 55-192,
and amendments thereto.
  Sec. 3. K.S.A. 55-161 is hereby amended to read as follows: 55-161.
The commission shall investigate abandoned wells, and, based on actual or
potential pollution problems, may select abandoned wells to be drilled out
by the commission in order to test the integrity of the plugs. The cost of
such testing shall be paid from the well plugging assurance fund or the
abandoned oil and gas well fund, as appropriate established pursuant to
K.S.A. 55-192, and amendments thereto.
  Sec. 4. K.S.A. 55-168 is hereby amended to read as follows: 55-168.
Whenever there are insufficient moneys in the well plugging assurance
fund or the abandoned oil and gas well fund established pursuant to K.S.A.
55-192, and amendments thereto, to pay the liabilities of such fund, such
liabilities shall be and are hereby imposed on the conservation fee fund,
established pursuant to K.S.A. 55-143, and amendments thereto, provided
such liabilities were incurred in accordance with the prioritization schedules established pursuant to subsection (b)(2) of K.S.A. 55-166, and amendments thereto, and subsection (b)(2) of K.S.A. 55-192, and amendments thereto.

Sec. 5. K.S.A. 55-178 is hereby amended to read as follows: 55-178.
(a) Any person who has reason to believe that any abandoned well which has been abandoned is causing or is likely to cause the loss of any usable water or pollution of any usable water strata or supply or the imminent loss or pollution of any usable water through downward drainage by reason of the fact that, because the well has not been plugged, was improperly plugged, or that the plugging is no longer effective—by reason of the deterioration of the pipe or by any other cause, may file a complaint in writing, so alleging, with the commission secretary. Such complaint shall state the location of the well and the facts which caused why the complainant believes that such well is causing or is likely to cause the loss of any usable water or pollution of any usable water strata or supply or the imminent loss or pollution of any usable water.

(b) Upon receipt of any complaint filed pursuant to this section, the commission shall conduct an investigation for the purpose of determining whether the well is an abandoned well causing or likely to cause loss of any usable water or pollution of any usable water strata or the imminent loss or pollution of any usable water. As a result of the investigation, the commission may take any action or issue any order pursuant to the provisions of the Kansas administrative procedure act as may be appropriate. Proceedings for reconsideration and judicial review of any order shall be conducted in the manner provided pursuant to K.S.A. 55-606, and amendments thereto.

(c) As used in this section, "abandoned well" means a well that is not claimed on an operator's license that is active with the commission and is unplugged, improperly plugged or no longer effectively plugged.

Sec. 6. K.S.A. 55-179 is hereby amended to read as follows: 55-179.
(a) Upon receipt of any complaint filed pursuant to K.S.A. 55-178 and amendments thereto, the commission shall make an investigation for the purpose of determining whether such abandoned well is polluting or is likely to pollute any usable water strata or supply or causing the loss of usable water, or the commission may initiate such investigation on its own motion. If the commission determines:

1. That such abandoned well is causing or likely to cause such pollution or loss; and
2. (A) that no person is legally responsible for the proper care and control of such well; or (B) that the person legally responsible for the care and control of such well is dead, is no longer in existence, is insolvent or cannot be found, then, after completing its investigation, and as funds are
available, the commission shall plug, replug or repair such well, or cause it to be plugged, replugged or repaired, in such a manner as to prevent any further pollution or danger of pollution of any usable water strata or supply or loss of usable water, and shall remediate pollution from the well, whenever practicable and reasonable. The cost of the investigation; the plugging, replugging or repair; and the remediation shall be paid by the commission from the well plugging assurance fund or the abandoned oil and gas well fund, as appropriate.

(b) For the purposes of this section, a person who is legally responsible for the proper care and control of an abandoned well shall include, but is not limited to, one or more of the following: Any operator of a waterflood or other pressure maintenance program deemed to be causing pollution or loss of usable water; the current or last operator of the lease upon which such well is located, irrespective of whether such operator plugged or abandoned such well; the original operator who plugged or abandoned such well; and any person who without authorization tampers with or removes surface equipment or downhole equipment from an abandoned well.

(c) Whenever the commission determines that a well has been abandoned and is causing or is likely to cause pollution of any usable water strata or supply or loss of usable water, and whenever the commission has reason to believe that a particular person is legally responsible for the proper care and control of such well, the commission shall cause such person to come before it at a hearing held in accordance with the provisions of the Kansas administrative procedure act to show cause why the requisite care and control has not been exercised with respect to such well. After such hearing, if the commission finds that the person is legally responsible for the proper care and control of such well and that such well is abandoned, in fact, and is causing or is likely to cause pollution of any usable water strata or supply or loss of usable water, the commission may make any order or orders prescribed in K.S.A. 55-162, and amendments thereto. Proceedings for reconsideration and judicial review of any of the commission’s orders may be held pursuant to K.S.A. 55-606, and amendments thereto.

(d) For the purpose of this section, any well which has been abandoned, in fact, and has not been plugged pursuant to the rules and regulations in effect at the time of plugging such well shall be and is hereby deemed likely to cause pollution of any usable water strata or supply.

(e) For the purpose of this section, the person legally responsible for the proper care and control of an abandoned well shall not include the landowner or surface owner unless the landowner or surface owner has operated or produced the well, has deliberately altered or tampered with
such well thereby causing the pollution or has assumed by written contract
such responsibility. (a) If the commission determines that a well is an
abandoned well and has reason to believe that any person is legally
responsible for the proper care and control of such well, the commission
shall cause any such person to come before the commission in accordance
with the provisions of the Kansas administrative procedure act. If the
commission finds that any person is, in fact, legally responsible for the
proper care and control of such well, the commission may issue any orders
obligating any such person to plug the well or to otherwise cause such
well to be brought into compliance with all rules and regulations of the
commission and may order any other remedies as may be just and
reasonable. Proceedings for reconsideration and judicial review of any
order shall be conducted in the manner provided pursuant to K.S.A. 55-
606, and amendments thereto.

(b) A person that is legally responsible for the proper care and
control of an abandoned well shall be limited to one or more of the
following:

(1) Any person, including any operator of an injection well, disposal
well or pressure maintenance program, causing pollution or loss of usable
water through the well;

(2) the most recent operator to produce from or inject or dispose into
the well, but if no production or injection has occurred, the person that
caused the well to be drilled. A person shall not be legally responsible for
a well pursuant to this paragraph if: (A) Such person can demonstrate that
the well was physically operating or was in compliance with temporary
abandonment regulations immediately before such person transferred or
assigned the well to an operator with an active operator's license; and (B)
a completed report of transfer was filed pursuant to commission
regulations if transferred or assigned after August 28, 1997;

(3) the person that most recently accepted responsibility for the well
by accepting an assignment or by signing an agreement or other written
document, between private parties, in which the person accepted
responsibility. Accepting an assignment of a lease, obtaining a new lease
or signing an agreement or any other written document between private
parties shall not in and of itself create responsibility for a well located
upon the land covered thereby unless such instrument adequately
identifies the well and expressly transfers responsibility for such well;

(4) the operator that most recently filed a completed report of
transfer with the commission in which such operator accepted
responsibility for the well or, if no completed report of transfer has been
filed, the operator that most recently filed a well inventory with the
commission in which such operator accepted responsibility for the well.
Any modification made by commission staff of any such documents shall
not alter legal responsibility unless the operator was informed of such
modification and approved of the modification in writing;
(5) the operator that most recently plugged the well, if no commission
funds were used; and
(6) any person that does any of the following to an abandoned well
without authorization from the commission: (A) Tampers with or removes
surface or downhole equipment that was physically attached to the well or
inside the well bore; (B) intentionally destroys, buries or damages the
well; (C) intentionally alters the physical status of the well in a manner
that will result in more than a de minimis increase in plugging costs; or
(D) conducts any physical operations upon the well.
(c) If the commission determines that no person is legally responsible
for the proper care and control of an abandoned well, or that each legally
responsible person is dead, no longer in existence, insolvent or can no
longer be found, then the commission shall cause such well to be plugged
as funds become available. The cost of such plugging shall be paid by the
commission from the abandoned oil and gas well fund created pursuant to
K.S.A. 55-192, and amendments thereto.
(d) For the purpose of this section, any well that has been
abandoned, in fact, and has not been plugged pursuant to the rules and
regulations in effect at the time of plugging such well shall be and is
hereby deemed likely to cause pollution of any usable water strata or
supply.
(e) The validity of any order issued by the commission prior to July 1,
2020, shall not be affected by the provisions of this section but shall apply
to any determination of responsibility regarding any abandoned well.
(f) As used in this section, "abandoned well" means a well that is not
claimed on an operator's license that is active with the commission and is
unplugged, improperly plugged or no longer effectively plugged.
Sec. 7. K.S.A. 55-180 is hereby amended to read as follows: 55-180.
(a) The fact that any person has initiated or supported a proceeding before
the commission, or has remedied or attempted to remedy the condition of
any well under the authority of this act, shall not be construed as an
admission of liability or received in evidence against such person in any
action or proceeding wherein responsibility for or damages from surface or
subsurface pollution, or injury to any usable water or oil-bearing or gas-
bearing formation, is or may become an issue; nor shall such fact be
construed as releasing or discharging any action, cause of action or claim
against such person existing in favor of any third person for damages to
property resulting from surface or subsurface pollution, or injury to any
usable water or oil-bearing or gas-bearing formation.
(b) The commission, on its own motion, may initiate an investigation
into any pollution problem related to oil and gas activity. In taking such
action the commission may require or perform the testing, sampling, monitoring or disposal of any source of groundwater pollution related to oil and gas activities.

(c) Any abandoned well may be plugged by any person if such: (1) Person has written consent from a surface owner of the land upon which the well is located or has other legal access to such land; and (2) plugging is done by a person licensed by the commission and in accordance with all rules and regulations of the commission.

(d) The commission or any other person authorized by the commission who has no obligation to plug, replug or repair any abandoned well, but who does so in accordance with the provisions of this act, shall have a cause of action for the reasonable cost and expense incurred in plugging, replugging or repairing the well against any person who is legally responsible for the proper care and control of such well pursuant to the provisions of K.S.A. 55-179, and amendments thereto, and the commission or other person shall have a lien upon the interest of such obligated person in and to the oil and gas rights in the land and equipment located thereon.

(e) Any moneys recovered by the commission in an action pursuant to subsection (d) shall be remitted to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury to the credit of the conservation fee fund, well plugging assurance fund established pursuant to K.S.A. 55-143, and amendments thereto, or the abandoned oil and gas well fund established pursuant to K.S.A. 55-192, and amendments thereto, as appropriate based on the fund from which the costs incurred by the commission were paid.

(f) (1) For any well that has been abandoned for five years or more, any person who has no obligation to plug, replug or repair the well, that causes such well to be plugged may seek reimbursement from the abandoned oil and gas well fund created pursuant to K.S.A. 55-192, and amendments thereto. The commission shall adopt rules and regulations for determining whether, how and to what extent a request for reimbursement shall be granted.

(2) The provisions of this subsection shall not entitle any person to receive reimbursement for the plugging of any abandoned well that has been abandoned for five years or more unless such reimbursement is approved pursuant to the rules and regulations established by the commission for such purpose.

(g) No person shall become legally responsible for the care and control of any well solely on the basis of having appropriately plugged a well pursuant to this section.
(h) As used in this section, "abandoned well" means a well that is not claimed on an operator's license that is active with the commission and is unplugged, improperly plugged or no longer effectively plugged.

Sec. 8. K.S.A. 55-192 is hereby amended to read as follows: 55-192.
(a) There is hereby established in the state treasury the abandoned oil and gas well fund.

(b) Moneys in the abandoned oil and gas well fund shall be used only for the purpose of paying the costs of: (1) Investigation and remediation of contamination sites; (2) investigation of abandoned wells, and their well sites, drilling of which began before July 1, 1996; and (3) plugging, replugging or repairing abandoned wells, and remediation of the well sites, drilling of which began before July 1, 1996, in accordance with a prioritization schedule adopted by the commission and based on the degree of threat to public health or the environment; and (4) any reimbursement authorized by the commission pursuant to K.S.A. 55-180, and amendments thereto. No moneys credited to the fund shall be used to pay administrative expenses of the commission or to pay compensation or other expenses of employing personnel to carry out the duties of the commission.

(c) On or before the 10th day of each month, the director of accounts and reports shall transfer from the state general fund to the abandoned oil and gas well fund interest earnings based on: (1) The average daily balance of moneys in the abandoned oil and gas well fund for the preceding month; and (2) the net earnings rate for the pooled money investment portfolio for the preceding month.

(d) All expenditures from the abandoned oil and gas well fund shall be made in accordance with appropriations acts upon warrants of the director of accounts and reports issued pursuant to vouchers approved by the chairperson of the state corporation commission or a person designated by the chairperson.

(e) On July 1, 2020: (1) The director of accounts and reports shall transfer all moneys in the well plugging assurance fund established pursuant to K.S.A. 55-166, prior to its repeal, to the abandoned oil and gas well fund; (2) all liabilities of the well plugging assurance fund are hereby transferred to and imposed on the abandoned oil and gas well fund; and (3) the well plugging assurance fund is hereby abolished.
