It is the intent of the legislature that, to the maximum extent possible, moneys in the fund be utilized to address contamination resulting from releases of drycleaning solvents. The department is directed to administer the Kansas drycleaner environmental response act under the following criteria:

(a) To the maximum extent possible, the department itself should deal with contamination from drycleaning facilities utilizing moneys in the fund. The department should discourage other units of government, both federal and local, including the United States environmental protection agency, from becoming involved in contamination problems resulting from releases from drycleaning facilities.

(b) The department should make every reasonable effort to keep sites where drycleaning solvents are involved off of the national priorities list, as defined in 40 C.F.R. § 300.5.
(c) The department should not seek out contaminated drycleaning facility sites because of the existence of the fund or the other provisions of this act. The moneys are made available for use as sites are discovered in the normal course of the business of the agency.

(d) Careful consideration should be given to interim or early corrective action which may result in an overall reduction of risk to human health and the environment and in the reduction of total costs of corrective action at a site. Such interim or early corrective action should receive consideration by the department as a high priority.

(e) The department, in its discretion, may use innovative technology to perform corrective action.

Sec. 3. K.S.A. 65-34,148 is hereby amended to read as follows: 65-34,148. (a) Whenever a release poses a threat to human health or the environment, the department, consistent with rules and regulations adopted by the secretary pursuant to subsections (d) and (e) of K.S.A. 65-34,143(d) and (e), and amendments thereto, shall expend moneys available in the fund to provide for the:

1. Investigation and assessment of a release from a drycleaning facility, including the costs of investigations and assessments of contamination which may have moved off the drycleaning facility;
2. Necessary or appropriate emergency action, including, but not limited to, treatment, restoration or replacement of drinking water supplies, to assure that the human health or safety is not threatened by a release or potential release;
3. Remediation of releases from drycleaning facilities, including the release and any resulting contamination which may have moved off the drycleaning facility, which remediation shall consist of clean up of that consists of cleaning up affected soil, groundwater and surface waters, using the most cost effective alternative that:
   (A) Is technologically feasible and reliable;
   (B) provides adequate protection of human health and environment; and
   (C) to the extent practical, minimizes environmental damage; and
4. Operation and maintenance of corrective action;
5. Monitoring of releases from drycleaning facilities including the release and any resulting contamination which may have moved off of the drycleaning facility;
6. Payment of reasonable costs incurred by the secretary in providing field and laboratory services;
7. Reasonable costs of restoring property, as nearly closely as practicable to the conditions that existed prior to the activities associated with the investigation of a release or clean up or remediation activities;
8. Removal and proper disposal of wastes generated by a release
of a drycleaning solvent; and

(9) payment of costs of corrective action conducted by the department or by other entities other than the department but approved by the department to conduct such corrective action, whether or not such corrective action is set out in a corrective action plan, provided, however, except that reimbursement for corrective action costs incurred before the effective date of this act shall be limited to $100,000 per site.

(b) Nothing in subsection (a) shall be construed to authorize the department to obligate moneys in the fund for the payment of any costs which are not integral to corrective action for a release of drycleaning solvents from a drycleaning facility. Moneys from the fund shall not be used:

(1) For corrective action at sites that are contaminated by solvents normally used in drycleaning operations where the contamination did not result from the operation of a drycleaning facility;

(2) for corrective action at sites, other than drycleaning facilities, that are contaminated by drycleaning solvents which were released while being transported to or from a drycleaning facility by a party other than the owner of such drycleaning facility or the owner's agents or employees;

(3) to pay any costs associated with any fine or penalty brought against a drycleaning facility owner under state or federal law; or

(c) Nothing in this act shall be construed to restrict the department from:

(1) Modifying, in the discretion of the secretary, the priority status of a site where warranted under the system of priorities established pursuant to subsection (d) of K.S.A. 65-34,143(d), and amendments thereto; or

(2) temporarily postponing completion of corrective action for which moneys from the fund are being expended whenever such postponement is deemed necessary in order to make moneys available for corrective action at a site with a higher priority.

(d) At any multisource site, the secretary shall utilize the moneys in the fund to pay for the proportionate share of the liability for corrective action costs which is attributable to a release from one or more drycleaning facilities and for that proportionate share of the liability only.

(e) At any multisource site, the secretary is authorized to make a determination of the relative liability of the fund for costs of corrective action, expressed as a percentage of the total cost of corrective action at a site, whether known or unknown. The secretary shall issue an order
establishing such percentage of liability. Such order shall be binding and shall control the obligation of the fund until or unless amended by the secretary. In the event of an appeal from such order, such percentage of liability shall be controlling for costs incurred during the pendency of the appeal.

(f) Any authorized officer, employee or agent of the department, or any person under order or contract with the department, may enter onto any property or premises, at reasonable times and upon written notice to the owner or occupant, to take corrective action where the secretary determines that such action is necessary to protect the public human health or the environment. If consent is not granted by the person in control of a site or suspected site regarding any request made by any officer, employee or agent of the department, or any person under order or contract with the department, under the provisions of this section, the secretary may issue an order directing compliance with the request. The order may be issued after such notice and opportunity for consultation as is reasonably appropriate under the circumstances.

(g) (1) Notwithstanding the other provisions of this act, in the discretion of the secretary, an owner or operator may be responsible for up to 100% of the costs of corrective action attributable to such owner or operator if the secretary finds, after notice and an opportunity for a hearing in accordance with the Kansas administrative procedure act, that:

(1)(A) Requiring the owner or operator to bear such responsibility will not prejudice another owner or operator or person who is eligible, under the provisions of this act, to have corrective action costs paid by the fund; and

(2) For purposes of this subsection-(g), unless a transfer is made solely to take advantage of this provision, purchasers of stock or other
indicia of ownership and other successors in interest shall not be considered to be the same owner or operator as the seller or transferor of such stock or indicia of ownership even though there may be no change in the legal identity of the owner or operator. To the extent that an owner or operator is responsible for corrective action costs under this subsection, such owner or operator shall not be entitled to the exemption set out in subsection (c) of K.S.A. 65-34,149(c), and amendments thereto.

(h) The fund shall not be liable for the payment of costs in excess of $5,000,000 for corrective action at any contaminated drycleaning site. For purposes of this subsection, "contaminated drycleaning site" means the areal extent of soil or groundwater contamination with drycleaning solvents.

(i) (1) There shall be a deductible of $5,000 of for any corrective action costs incurred because of a release from a drycleaning facility. Nothing herein shall prohibit the department from taking corrective action because the department cannot obtain the deductible.

(2) Any applicant to the fund shall pay the highest deductible that is applicable to such applicant, as follows:

(A) The operator of a drycleaning facility that has been demonstrated to be the source of contamination to soil, groundwater or surface waters of the state shall pay a deductible of $10,000.

(B) Any owner of the property who receives or has received direct or indirect payment, or another form of consideration, from the operation of a drycleaning facility that has been demonstrated to be the source of contamination to soil, groundwater or surface waters of the state and who was the owner of such property during the time of such operation shall pay a deductible of $7,500.

(C) Any owner of the property of a former drycleaning facility that has been demonstrated to be the source of contamination to soil, groundwater or surface waters of the state shall pay a deductible of $5,000 if such owner:

(i) Purchased or obtained ownership of the property after the closure of the drycleaning facility; and

(ii) had no preexisting familial, contractual or financial relationship with any previous owner or operator or any other party responsible for the contamination, other than the relationship that was established in order to purchase or obtain ownership of such property.

(D) Any state, or any agency, instrumentality or political or taxing subdivision thereof, seeking corrective action through the fund on behalf of an operator or owner shall pay a deductible of $5,000.

(b) Nothing in this act shall establish or create any liability or responsibility on the part of the secretary, the department or the state of Kansas, or agents or employees thereof, to pay any corrective action costs from any source other than the fund or to take corrective action if the moneys in the fund are insufficient to do so.

(c) To the extent that an owner, operator or other person is eligible, under the provisions of this act, to have corrective action costs paid by the fund, no administrative or judicial claim may be made under state law against any such owner, operator or other person by or on behalf of a state or local government or by any person to compel corrective action or seek recovery of the costs of corrective action which result from the release of drycleaning solvents from a drycleaning facility.

The tax shall be at a rate of \(2.5\%\) of the gross receipts received from drycleaning or laundering services. The tax shall be paid by the consumer to the retailer and it shall be the duty of the retailer to collect from the consumer the full amount of the tax imposed or an amount as nearly as possible or practicable to the average thereof.
