contract, either directly or indirectly through a pharmacy services
administration organization, with a PBM administering any type of drug or pharmacy benefit plan to provide covered drugs, devices or services at a contractual reimbursement rate may decline to provide a covered drug, device or service if the pharmacy or pharmacist is currently reimbursed or will be reimbursed at less than the acquisition cost for the covered drug, device or service.

(2) If the pharmacy or pharmacist declines to provide the drug, device or service as authorized in this subsection, then the pharmacy or pharmacist shall provide the customer with adequate information for the customer to determine where the prescription for the drug, device or service may be filled.

(i) A PBM, pharmacy services administration organization or any person acting for, or on behalf of, a PBM or pharmacy services administration organization shall not cancel any contract with a pharmacy or pharmacist, sue for breach of contract, use the decision to decline as a cause for not renewing the contract or retaliate against or penalize the pharmacy or pharmacist in any way for exercising the pharmacy's or pharmacist's rights under this section.

(j) This section shall be a part of and supplemental to article 38 of chapter 40 of the Kansas Statutes Annotated, and amendments thereto.

New Sec. 7. (a) A PBM or health carrier shall not require or demonstrate a preference for a pharmacy to dispense a therapeutically equivalent or therapeutically alternative drug that costs the enrollee more out-of-pocket than the prescribed drug, unless the substitution is made for medical reasons that benefit the patient.
