

## **Electronic Prescription Orders; Administering a Drug by Injection; Authorization of Business Entities to Hire Physicians and Chiropractors; HB 2119**

**HB 2119** amends the Pharmacy Act of the State of Kansas (Pharmacy Act) to require certain prescription orders be transmitted electronically and to permit a licensed pharmacist to administer a drug by injection in certain situations. The bill also allows a business entity issued a certificate of authorization by the Board of Healing Arts (BOHA) to employ or contract with one or more licensees of BOHA, for the purpose of providing professional services for which such licensees hold a valid license issued by BOHA.

### ***Electronic Prescription Orders***

The bill requires every prescription order issued for a controlled substance in schedule II-V that contains opiate to be transmitted electronically except as follows:

- Electronic prescription orders are not possible due to technological or electronic system failures;
- Electronic prescribing is not available to the prescriber due to economic hardship or technological limitations that are not reasonably within the control of the prescriber or other exceptional circumstances exist as demonstrated by the prescriber;
- The prescription order is for a compounded preparation containing two or more components or requires information that makes electronic submission impractical, such as complicated or lengthy instructions for use;
- The prescription order is issued by a licensed veterinarian;
- The prescriber reasonably determines it would be impractical for the patient to obtain the substances prescribed by electronic prescription in a timely manner and such delay would adversely impact the patient's medical condition;
- The prescription order is issued pursuant to drug research or drug therapy protocols;
- The prescription order is by a prescriber who issues 50 or fewer prescription orders per year for controlled substances that contain opiates; or
- The U.S. Food and Drug Administration requires the prescription order to contain elements that are not compatible or possible with electronic prescriptions.

A prescriber is allowed to request a waiver from electronically transmitting prescriptions described above for a period not to exceed six months if the prescriber cannot comply with the electronic transmitting requirements due to economic hardship, technological limitations, or other circumstance demonstrated by the prescriber. The bill allows the prescriber to request

renewal of a waiver granted by the State Board of Pharmacy, for a period not to exceed six months. The bill requires requests for waivers or renewals to be submitted to the State Board of Pharmacy in a form and manner prescribed by the State Board of Pharmacy and to include the reason for the request and any other information required by the State Board of Pharmacy.

If a prescriber prescribes a controlled substance by non-electronic prescription, the prescriber is required to indicate the prescription is made pursuant to a waiver. A pharmacist is not required to verify the validity of the waiver, either with the prescriber or the State Board of Pharmacy, but is allowed to do so in accordance with continuing law.

The bill provisions requiring every prescription order issued for a controlled substance in schedule II-V that contains opiate to be transmitted electronically takes effect July 1, 2021. [Note: Substances included in the schedules are listed in KSA 65-4107 *et seq.*]

### ***Administration of a Drug by Injection***

The bill also amends the Pharmacy Act to permit a licensed pharmacist to administer a drug by injection that, in the judgment of the prescriber, could safely be self-administered by a patient, to a patient pursuant to a prescription order, unless the prescription order includes the words “not to be administered by a pharmacist,” or words of like effect. The bill defines “medication order” to mean an order by a prescriber for a registered patient of a Kansas licensed medical care facility.

Nothing in the provisions of the bill replaces, repeals, or supersedes requirements prescribed in KSA 65-4a10, which states, among other things, no abortion shall be performed or induced by any person other than a physician licensed to practice medicine in Kansas.

### ***Authorization of Business Entities to Hire Physicians and Chiropractors***

The bill allows a business entity issued a certificate of authorization by BOHA to employ or contract with one or more licensees of BOHA, for the purpose of providing professional services for which such licensees hold a valid license issued by BOHA. The bill provides nothing in the Kansas Healing Arts Act is to be construed to prohibit a licensee from being employed by or under contract to provide professional services for a business entity granted a certificate of authorization as set forth in the bill. Medical care facilities in compliance with Kansas Department of Health and Environment licensure requirements and defined as a hospital, ambulatory surgical center, or recuperation center are exempt from the provisions in the bill. The bill shall not be construed to allow a corporation to practice optometry or dentistry, except as otherwise provided in Kansas law. The provisions are added to the Kansas Healing Arts Act.
