Background

The bill was introduced by the House Committee on Taxation at the request of the Kansas Wine & Spirits Wholesalers Association.

In the House Committee on Federal and State Affairs hearing, proponent testimony was presented by the Director and a representative of the Kansas Wine & Spirits Wholesalers Association. Written-only proponent testimony was provided by the Kansas Association of Beverage Retailers and the Kansas Beer Wholesalers Association. The proponents testified the intent of the bill was to enforce liquor gallonage taxes in the state and to provide information regarding the amount of alcoholic liquor shipped into the state directly to consumers.

No other testimony was provided.

The House Committee amended the bill to specify required reports would concern known alcoholic liquors shipped by the carrier and penalties would be assessed against carriers who willfully failed, neglected, or refused to
file a report. The House Committee also amended the bill to remove references to railroad carriers.

According to the fiscal note prepared by the Division of the Budget on the bill, as introduced, the Division of Alcoholic Beverage Control (ABC), Department of Revenue indicates enactment of the bill would result in additional expenditures of $24,000 of State General Fund moneys in FY 2020 for information technology services to build a public-facing data entry portal where shipping carriers could report required data.

In addition, the Division of ABC indicates enactment of the bill could result in increased collection of gallonage taxes, but the Division of ABC was unable to estimate the amount of such increase. Any fiscal effect associated with enactment of the bill is not reflected in The FY 2020 Governor’s Budget Report.
