

WRITTEN TESTIMONY ONLY

February 17, 2022

## **PROPONENT of HB 2498**

Madam Chair Landwehr and the House Committee on Health and Human Services:

I am very concerned with the current laws in Kansas in that the Kansas Health and Human Services can add the Covid-19 vaccine to the childhood vaccine schedule for school **without** the checks and balances of our elected officials.

That is why we **MUST** pass HB2498! WE **CANNOT** force our children to get an experimental, insufficiently tested, NON-FDA APPROVED vaccine to attend school! Especially when the vaccine continues to lose efficacy as the virus mutates.

More and more research is coming out daily! 1 in 3000 children are reported getting myocarditis from these gene therapy injections as they ARE NOT vaccines! 50% of these children will not even show symptoms. It has recently been released that the VAERS data is specially under reporting the children getting myocarditis.

**You put the injected kids on a basketball court without symptoms and their stressed heart, you run the risk of a tragic event, like a heart attack! This has already happened all over the world. Over 400 professional soccer players have dropped in the middle of playing. High school kids have dropped playing football! There has been news report after news report!**

<https://thehighwire.com/videos/why-are-healthy-athletes-collapsing/>

“Israeli Ministry of Health reported a myocarditis incidence rate between 1 in 3000 and 1 in 6000 among 16 to 24 years old post-CoViD vaccines” <https://www.bmj.com/content/373/bmj.n1244/rr-10>

**THIS IS NOT IN THE SAME CLASS AS OTHER VACCINES!** There are no long-term safety studies. Even ACIP in their own hearing, said we needed to have kids take the shot to really know the long-term effects!

**THIS IS NOT RIGHT TO MAKE OUR CHILDREN IN KANSAS BE EXPERIMENTED ON WITH THIS NOVAL SHOT!**

Also, language must be added to page 3, line 41 to state “a written statement signed by a parent or guardian that the requirement would violate sincerely held religious beliefs of the parent or guardian. A religious belief includes, but is not limited to, Theistic and non-theistic moral and ethical beliefs as to what is right and wrong that are sincerely held with the strength of traditional religious views. Daycare centers and schools shall grant an exemption requested in writing without inquiring into the sincerity of the request”.

Please support this bill!

Sincerely,  
Mary Winger
