(2) violation of subsection (b) is a:
(A) Drug severity level 5 felony, except as provided in subsection (e)

to be distributed to a minor or on or within 1,000 feet of any school
property.

(f) For persons arrested and charged under subsection (a), bail shall
be at least $50,000 cash or surety, and such person shall not be released
upon the person's own recognizance pursuant to K.S.A. 22-2802, and
amendments thereto, unless the court determines, on the record, that the
defendant is not likely to re-offend, the court imposes pretrial supervision
or the defendant agrees to participate in a licensed or certified drug
treatment program.

(g) The provisions of subsection (c) shall not apply to any person

seq., and amendments thereto, whose distribution or manufacture is used

(3) receipt of packaging material, advertising information or other
manufacturer supplied information regarding the item's use as drug

Sec. 66. K.S.A. 2021 Supp. 23-3201 is hereby amended to read as
follows: 23-3201. (a) The court shall determine legal custody, residency
and parenting time of a child in accordance with the best interests of the
child.

(b) The court shall not consider the fact that a parent or a child
consumes medical marijuana in accordance with section 10, and
amendments thereto, when determining the legal custody, residency or
parenting time of a child.

Sec. 67. K.S.A. 38-2269 is hereby amended to read as follows: 38-
2269. (a) When the child has been adjudicated to be a child in need of
care, the court may terminate parental rights or appoint a permanent
custodian when the court finds by clear and convincing evidence that the
parent is unfit by reason of conduct or condition which renders the parent
unable to care properly for a child and the conduct or condition is unlikely
to change in the foreseeable future.

(b) In making a determination of unfitness the court shall consider, but is not limited to, the following, if applicable:

(1) Emotional illness, mental illness, mental deficiency or physical disability of the parent, of such duration or nature as to render the parent unable to care for the ongoing physical, mental and emotional needs of the child;

(2) conduct toward a child of a physically, emotionally or sexually cruel or abusive nature;

(3) the use of intoxicating liquors or narcotic or dangerous drugs of such duration or nature as to render the parent unable to care for the ongoing physical, mental or emotional needs of the child, except that the use of medical marijuana in accordance with section 10, and amendments thereto, shall not be considered to render the parent unable to care for the ongoing physical, mental or emotional needs of the child;

(4) physical, mental or emotional abuse or neglect or sexual abuse of a child;

(5) conviction of a felony and imprisonment;

(6) unexplained injury or death of another child or stepchild of the parent or any child in the care of the parent at the time of injury or death;

(7) failure of reasonable efforts made by appropriate public or private agencies to rehabilitate the family;

(8) lack of effort on the part of the parent to adjust the parent's circumstances, conduct or conditions to meet the needs of the child; and

(9) whether, as a result of the actions or inactions attributable to the parent and one or more of the factors listed in subsection (c) apply, the child has been in the custody of the secretary and placed with neither parent for 15 of the most recent 22 months beginning 60 days after the date on which a child in the secretary's custody was removed from the child's home.

(c) In addition to the foregoing, when a child is not in the physical custody of a parent, the court, shall consider, but is not limited to, the following:

(1) Failure to assure care of the child in the parental home when able to do so;

(2) failure to maintain regular visitation, contact or communication with the child or with the custodian of the child;

(3) failure to carry out a reasonable plan approved by the court directed toward the integration of the child into a parental home; and

(4) failure to pay a reasonable portion of the cost of substitute physical care and maintenance based on ability to pay.

In making the above determination, the court may disregard incidental visitations, contacts, communications or contributions.
(d) A finding of unfitness may be made as provided in this section if the court finds that the parents have abandoned the child, the custody of the child was surrendered pursuant to K.S.A. 38-2282, and amendments thereto, or the child was left under such circumstances that the identity of the parents is unknown and cannot be ascertained, despite diligent searching, and the parents have not come forward to claim the child within three months after the child is found.

(e) If a person is convicted of a felony in which sexual intercourse occurred, or if a juvenile is adjudicated a juvenile offender because of an act which, if committed by an adult, would be a felony in which sexual intercourse occurred, and as a result of the sexual intercourse, a child is conceived, a finding of unfitness may be made.

(f) The existence of any one of the above factors standing alone may, but does not necessarily, establish grounds for termination of parental rights.

(g) 1. If the court makes a finding of unfitness, the court shall consider whether termination of parental rights as requested in the petition or motion is in the best interests of the child. In making the determination, the court shall give primary consideration to the physical, mental and emotional health of the child. If the physical, mental or emotional needs of the child would best be served by termination of parental rights, the court shall so order. A termination of parental rights under the code shall not terminate the right of a child to inherit from or through a parent. Upon such termination all rights of the parent to such child, including, such parent's right to inherit from or through such child, shall cease.
2. If the court terminates parental rights, the court may authorize adoption pursuant to K.S.A. 38-2270, and amendments thereto, appointment of a permanent custodian pursuant to K.S.A. 38-2272, and amendments thereto, or continued permanency planning.
3. If the court does not terminate parental rights, the court may authorize appointment of a permanent custodian pursuant to K.S.A. 38-2272, and amendments thereto, or continued permanency planning.
4. If a parent is convicted of an offense as provided in K.S.A. 38-2271(a)(7), and amendments thereto, or is adjudicated a juvenile offender because of an act which if committed by an adult would be an offense as provided in K.S.A. 38-2271(a)(7), and amendments thereto, and if the victim was the other parent of a child, the court may disregard such convicted or adjudicated parent's opinions or wishes in regard to the placement of such child.
5. A record shall be made of the proceedings.
6. When adoption, proceedings to appoint a permanent custodian or continued permanency planning has been authorized, the person or agency awarded custody of the child shall within 30 days submit a written plan for
permanent placement which shall include measurable objectives and time
schedules.
Sec. 68. K.S.A. 44-501 is hereby amended to read as follows: 44-501.
(a) (1) Compensation for an injury shall be disallowed if such injury to the
employee results from:
(A) The employee's deliberate intention to cause such injury;
(B) the employee's willful failure to use a guard or protection against
accident or injury which is required pursuant to any statute and provided
for the employee;
(C) the employee's willful failure to use a reasonable and proper
guard and protection voluntarily furnished the employee by the employer;
(D) the employee's reckless violation of their employer's workplace
safety rules or regulations; or
(E) the employee's voluntary participation in fighting or horseplay
with a co-employee for any reason, work related or otherwise.
(2) Subparagraphs (B) and (C) of paragraph (1) of subsection (a)
Subsections (a)(1)(B) and (a)(1)(C) shall not apply when it was reasonable
under the totality of the circumstances not to use such equipment, or if the
employer approved the work engaged in at the time of an accident or
injury to be performed without such equipment.
(b) (1) (A) The employer shall not be liable under the workers
compensation act where the injury, disability or death was contributed to
by the employee's use or consumption of alcohol or any drugs, chemicals
or any other compounds or substances, including, but not limited to, any
drugs or medications which are available to the public without a
prescription from a health care provider, prescription drugs or medications,
any form or type of narcotic drugs, marijuana, stimulants, depressants or
hallucinogens.
(B) (i) In the case of drugs or medications which are available to the
public without a prescription from a health care provider and prescription
drugs or medications, compensation shall not be denied if the employee
can show that such drugs or medications were being taken or used in
therapeutic doses and there have been no prior incidences of the
employee's impairment on the job as the result of the use of such drugs or
medications within the previous 24 months.
(ii) In the case of marijuana or any other form of cannabis, including
any cannabis derivatives, compensation shall not be denied if the
employee is registered as a patient pursuant to section 8, and amendments
thereto, such cannabis or cannabis derivative was used in accordance
with the medical marijuana regulation act, section 1 et seq., and
amendments thereto, and there has been no prior incidence of the
employee's impairment on the job as a result of the use of such cannabis
or cannabis derivative within the immediately preceding 24 months.
(C) It shall be conclusively presumed that the employee was impaired due to alcohol or drugs if it is shown that, at the time of the injury, the employee had an alcohol concentration of .04 or more, or a GCMS confirmatory test by quantitative analysis showing a concentration at or above the levels shown on the following chart for the drugs of abuse listed:

(D) If it is shown that the employee was impaired pursuant to subsection (b)(1)(C) at the time of the injury, there shall be a rebuttable presumption that the accident, injury, disability or death was contributed to by such impairment. The employee may overcome the presumption of contribution by clear and convincing evidence.

(E) An employee's refusal to submit to a chemical test at the request of the employer shall result in the forfeiture of benefits under the workers' compensation act if the employer had sufficient cause to suspect the use of alcohol or drugs by the claimant or if the employer's policy clearly authorizes post-injury testing.

(2) The results of a chemical test shall be admissible evidence to prove impairment if the employer establishes that the testing was done under any of the following circumstances:

(A) As a result of an employer mandated drug testing policy, in place in writing prior to the date of accident or injury, requiring any worker to submit to testing for drugs or alcohol;

(B) during an autopsy or in the normal course of medical treatment for reasons related to the health and welfare of the injured worker and not at the direction of the employer;

(C) the worker, prior to the date and time of the accident or injury,
gave written consent to the employer that the worker would voluntarily submit to a chemical test for drugs or alcohol following any accident or injury;

(D) the worker voluntarily agrees to submit to a chemical test for drugs or alcohol following any accident or injury; or

(E) as a result of federal or state law or a federal or state rule or regulation having the force and effect of law requiring a post-injury testing program and such required program was properly implemented at the time of testing.

(3) Notwithstanding subsection (b)(2), the results of a chemical test performed on a sample collected by an employer shall not be admissible evidence to prove impairment unless the following conditions are met:

(A) The test sample was collected within a reasonable time following the accident or injury;

(B) the collecting and labeling of the test sample was performed by or under the supervision of a licensed health care professional;

(C) the test was performed by a laboratory approved by the United States department of health and human services or licensed by the department of health and environment, except that a blood sample may be tested for alcohol content by a laboratory commonly used for that purpose by state law enforcement agencies;

(D) the test was confirmed by gas chromatography-mass spectroscopy or other comparably reliable analytical method, except that no such confirmation is required for a blood alcohol sample;

(E) the foundation evidence must establish, beyond a reasonable doubt, that the test results were from the sample taken from the employee; and

(F) a split sample sufficient for testing shall be retained and made available to the employee within 48 hours of a positive test.

(c) (1) Except as provided in paragraph (2), compensation shall not be paid in case of coronary or coronary artery disease or cerebrovascular injury unless it is shown that the exertion of the work necessary to precipitate the disability was more than the employee's usual work in the course of the employee's regular employment.

(2) For events occurring on or after July 1, 2014, in the case of a firefighter as defined by K.S.A. 40-1709(b)(1), and amendments thereto, or a law enforcement officer as defined by K.S.A. 74-5602, and amendments thereto, coronary or coronary artery disease or cerebrovascular injury shall be compensable if:

(A) The injury can be identified as caused by a specific event occurring in the course and scope of employment;

(B) the coronary or cerebrovascular injury occurred within 24 hours of the specific event; and
(C) the specific event was the prevailing factor in causing the coronary or coronary artery disease or cerebrovascular injury.

(d) Except as provided in the workers compensation act, no construction design professional who is retained to perform professional services on a construction project or any employee of a construction design professional who is assisting or representing the construction design professional in the performance of professional services on the site of the construction project, shall be liable for any injury resulting from the employer's failure to comply with safety standards on the construction project for which compensation is recoverable under the workers compensation act, unless responsibility for safety practices is specifically assumed by contract. The immunity provided by this subsection to any construction design professional shall not apply to the negligent preparation of design plans or specifications.

(e) An award of compensation for permanent partial impairment, work disability, or permanent total disability shall be reduced by the amount of functional impairment determined to be preexisting. Any such reduction shall not apply to temporary total disability, nor shall it apply to compensation for medical treatment.

(1) Where workers compensation benefits have previously been awarded through settlement or judicial or administrative determination in Kansas, the percentage basis of the prior settlement or award shall conclusively establish the amount of functional impairment determined to be preexisting. Where workers compensation benefits have not previously been awarded through settlement or judicial or administrative determination in Kansas, the amount of preexisting functional impairment shall be established by competent evidence.

(2) In all cases, the applicable reduction shall be calculated as follows:

(A) If the preexisting impairment is the result of injury sustained while working for the employer against whom workers compensation benefits are currently being sought, any award of compensation shall be reduced by the current dollar value attributable under the workers compensation act to the percentage of functional impairment determined to be preexisting. The "current dollar value" shall be calculated by multiplying the percentage of preexisting impairment by the compensation rate in effect on the date of the accident or injury against which the reduction will be applied.

(B) In all other cases, the employer against whom benefits are currently being sought shall be entitled to a credit for the percentage of preexisting impairment.

(f) If the employee receives, whether periodically or by lump sum, retirement benefits under the federal social security act or retirement
benefits from any other retirement system, program, policy or plan which is provided by the employer against which the claim is being made, any compensation benefit payments which the employee is eligible to receive under the workers compensation act for such claim shall be reduced by the weekly equivalent amount of the total amount of all such retirement benefits, less any portion of any such retirement benefit, other than retirement benefits under the federal social security act, that is attributable to payments or contributions made by the employee, but in no event shall the workers compensation benefit be less than the workers compensation benefit payable for the employee's percentage of functional impairment. Where the employee elects to take retirement benefits in a lump sum, the lump sum payment shall be amortized at the rate of 4% per year over the employee's life expectancy to determine the weekly equivalent value of the benefits.

Sec. 69. K.S.A. 44-706 is hereby amended to read as follows: 44-706. The secretary shall examine whether an individual has separated from employment for each week claimed. The secretary shall apply the provisions of this section to the individual's most recent employment prior to the week claimed. An individual shall be disqualified for benefits:

(a) If the individual left work voluntarily without good cause attributable to the work or the employer, subject to the other provisions of this subsection. For purposes of this subsection, "good cause" is cause of such gravity that would impel a reasonable, not supersensitive, individual exercising ordinary common sense to leave employment. Good cause requires a showing of good faith of the individual leaving work, including the presence of a genuine desire to work. Failure to return to work after expiration of approved personal or medical leave, or both, shall be considered a voluntary resignation. After a temporary job assignment, failure of an individual to affirmatively request an additional assignment on the next succeeding workday, if required by the employment agreement, after completion of a given work assignment, shall constitute leaving work voluntarily. The disqualification shall begin the day following the separation and shall continue until after the individual has become reemployed and has had earnings from insured work of at least three times the individual's weekly benefit amount. An individual shall not be disqualified under this subsection if:

(1) The individual was forced to leave work because of illness or injury upon the advice of a licensed and practicing health care provider and, upon learning of the necessity for absence, immediately notified the employer thereof, or the employer consented to the absence, and after recovery from the illness or injury, when recovery was certified by a practicing health care provider, the individual returned to the employer and offered to perform services and the individual's regular work or
comparable and suitable work was not available. As used in this paragraph "health care provider" means any person licensed by the proper licensing authority of any state to engage in the practice of medicine and surgery, osteopathy, chiropractic, dentistry, optometry, podiatry or psychology;

(2) the individual left temporary work to return to the regular employer;

(3) the individual left work to enlist in the armed forces of the United States, but was rejected or delayed from entry;

(4) the spouse of an individual who is a member of the armed forces of the United States who left work because of the voluntary or involuntary transfer of the individual's spouse from one job to another job, which is for the same employer or for a different employer, at a geographic location which makes it unreasonable for the individual to continue work at the individual's job. For the purposes of this provision the term "armed forces" means active duty in the army, navy, marine corps, air force, coast guard or any branch of the military reserves of the United States;

(5) the individual left work because of hazardous working conditions. In determining whether or not working conditions are hazardous for an individual, the degree of risk involved to the individual's health, safety and morals, the individual's physical fitness and prior training and the working conditions of workers engaged in the same or similar work for the same and other employers in the locality shall be considered. As used in this paragraph, "hazardous working conditions" means working conditions that could result in a danger to the physical or mental well-being of the individual. Each determination as to whether hazardous working conditions exist shall include, but shall not be limited to, a consideration of: (A) The safety measures used or the lack thereof; and (B) the condition of equipment or lack of proper equipment. No work shall be considered hazardous if the working conditions surrounding the individual's work are the same or substantially the same as the working conditions generally prevailing among individuals performing the same or similar work for other employers engaged in the same or similar type of activity;

(6) the individual left work to enter training approved under section 236(a)(1) of the federal trade act of 1974, provided the work left is not of a substantially equal or higher skill level than the individual's past adversely affected employment, as defined for purposes of the federal trade act of 1974, and wages for such work are not less than 80% of the individual's average weekly wage as determined for the purposes of the federal trade act of 1974;

(7) the individual left work because of unwelcome harassment of the individual by the employer or another employee of which the employing unit had knowledge and that would impel the average worker to give up
such worker's employment;

(8) the individual left work to accept better work; each determination as to whether or not the work accepted is better work shall include, but shall not be limited to, consideration of: (A) The rate of pay, the hours of work and the probable permanency of the work left as compared to the work accepted; (B) the cost to the individual of getting to the work left in comparison to the cost of getting to the work accepted; and (C) the distance from the individual's place of residence to the work accepted in comparison to the distance from the individual's residence to the work left;

(9) the individual left work as a result of being instructed or requested by the employer, a supervisor or a fellow employee to perform a service or commit an act in the scope of official job duties which is in violation of an ordinance or statute;

(10) the individual left work because of a substantial violation of the work agreement by the employing unit and, before the individual left, the individual had exhausted all remedies provided in such agreement for the settlement of disputes before terminating. For the purposes of this paragraph, a demotion based on performance does not constitute a violation of the work agreement;

(11) after making reasonable efforts to preserve the work, the individual left work due to a personal emergency of such nature and compelling urgency that it would be contrary to good conscience to impose a disqualification; or

(12) (A) the individual left work due to circumstances resulting from domestic violence, including:

(i) The individual's reasonable fear of future domestic violence at or en route to or from the individual's place of employment;

(ii) the individual's need to relocate to another geographic area in order to avoid future domestic violence;

(iii) the individual's need to address the physical, psychological and legal impacts of domestic violence;

(iv) the individual's need to leave employment as a condition of receiving services or shelter from an agency which provides support services or shelter to victims of domestic violence; or

(v) the individual's reasonable belief that termination of employment is necessary to avoid other situations which may cause domestic violence and to provide for the future safety of the individual or the individual's family.

(B) An individual may prove the existence of domestic violence by providing one of the following:

(i) A restraining order or other documentation of equitable relief by a court of competent jurisdiction;

(ii) a police record documenting the abuse;
(iii) documentation that the abuser has been convicted of one or more of the offenses enumerated in articles 34 and 35 of chapter 21 of the Kansas Statutes Annotated, prior to their repeal, or articles 54 or 55 of chapter 21 of the Kansas Statutes Annotated, and amendments thereto, or K.S.A. 2021 Supp. 21-6104, 21-6325, 21-6326 or 21-6418 through 21-6422, and amendments thereto, where the victim was a family or household member;

(iv) medical documentation of the abuse;

(v) a statement provided by a counselor, social worker, health care provider, clergy, shelter worker, legal advocate, domestic violence or sexual assault advocate or other professional who has assisted the individual in dealing with the effects of abuse on the individual or the individual's family; or

(vi) a sworn statement from the individual attesting to the abuse.

(C) No evidence of domestic violence experienced by an individual, including the individual's statement and corroborating evidence, shall be disclosed by the department of labor unless consent for disclosure is given by the individual.

(b) If the individual has been discharged or suspended for misconduct connected with the individual's work. The disqualification shall begin the day following the separation and shall continue until after the individual becomes reemployed and in cases where the disqualification is due to discharge for misconduct has had earnings from insured work of at least three times the individual's determined weekly benefit amount, except that if an individual is discharged for gross misconduct connected with the individual's work, such individual shall be disqualified for benefits until such individual again becomes employed and has had earnings from insured work of at least eight times such individual's determined weekly benefit amount. In addition, all wage credits attributable to the employment from which the individual was discharged for gross misconduct connected with the individual's work shall be canceled. No such cancellation of wage credits shall affect prior payments made as a result of a prior separation.

(1) (A) For the purposes of this subsection, "misconduct" is defined as a violation of a duty or obligation reasonably owed the employer as a condition of employment including, but not limited to, a violation of a company rule, including a safety rule, if:

(A)(i) The individual knew or should have known about the rule;

(B)(ii) the rule was lawful and reasonably related to the job; and

(C)(iii) the rule was fairly and consistently enforced.

(B) The term "misconduct":

(i) Does not include any violation of a duty, obligation or company rule if:
(a) The individual is a registered patient pursuant to section 8, and amendments thereto; and
(b) the basis for the violation is the possession of an identification card issued under section 8, and amendments thereto, or the possession or use of medical marijuana in accordance with the medical marijuana regulation act, section 1 et seq., and amendments thereto; and
(ii) includes any violation of a duty, obligation or company rule if the individual ingested marijuana in the workplace, worked while under the influence of marijuana or tested positive for a controlled substance.

(2) (A) Failure of the employee to notify the employer of an absence and an individual's leaving work prior to the end of such individual's assigned work period without permission shall be considered prima facie evidence of a violation of a duty or obligation reasonably owed the employer as a condition of employment.

(B) For the purposes of this subsection, misconduct shall include, but not be limited to, violation of the employer's reasonable attendance expectations if the facts show:
(i) The individual was absent or tardy without good cause;
(ii) the individual had knowledge of the employer's attendance expectation; and
(iii) the employer gave notice to the individual that future absence or tardiness may or will result in discharge.

(C) For the purposes of this subsection, if an employee disputes being absent or tardy without good cause, the employee shall present evidence that a majority of the employee's absences or tardiness were for good cause. If the employee alleges that the employee's repeated absences or tardiness were the result of health related issues, such evidence shall include documentation from a licensed and practicing health care provider as defined in subsection (a)(1).

(3) (A) (i) The term "gross misconduct" as used in this subsection shall be construed to mean conduct evincing extreme, willful or wanton misconduct as defined by this subsection. Gross misconduct shall include, but not be limited to:

(1) Theft;
(2) fraud;
(3) intentional damage to property;
(4) intentional infliction of personal injury; or
(5) any conduct that constitutes a felony.

(ii) The term "gross misconduct":
(a) Does not include any conduct of an individual if:

(1) The individual is a registered patient pursuant to section 8, and amendments thereto; and

(2) the basis for such conduct is the possession of an identification
card issued under section 8, and amendments thereto, or the possession or use of medical marijuana in accordance with the medical marijuana regulation act, section 1 et seq., and amendments thereto; and

(b) includes any conduct of an individual if the individual ingested marijuana in the workplace, worked while under the influence of marijuana or tested positive for a controlled substance.

(B) For the purposes of this subsection, the following shall be conclusive evidence of gross misconduct:

(i) The use of alcoholic liquor, cereal malt beverage or a nonprescribed controlled substance by an individual while working;

(ii) the impairment caused by alcoholic liquor, cereal malt beverage or a nonprescribed controlled substance by an individual while working;

(iii) a positive breath alcohol test or a positive chemical test, provided:

(a) The test was either:

(1) Required by law and was administered pursuant to the drug free workplace act, 41 U.S.C. § 701 et seq.;

(2) administered as part of an employee assistance program or other drug or alcohol treatment program in which the employee was participating voluntarily or as a condition of further employment;

(3) requested pursuant to a written policy of the employer of which the employee had knowledge and was a required condition of employment;

(4) required by law and the test constituted a required condition of employment for the individual's job; or

(5) there was reasonable suspicion to believe that the individual used, had possession of, or was impaired by alcoholic liquor, cereal malt beverage or a nonprescribed controlled substance while working;

(b) the test sample was collected either:

(1) As prescribed by the drug free workplace act, 41 U.S.C. § 701 et seq.;

(2) as prescribed by an employee assistance program or other drug or alcohol treatment program in which the employee was participating voluntarily or as a condition of further employment;

(3) as prescribed by the written policy of the employer of which the employee had knowledge and which constituted a required condition of employment;

(4) as prescribed by a test which was required by law and which constituted a required condition of employment for the individual's job; or

(5) at a time contemporaneous with the events establishing probable cause;

(c) the collecting and labeling of a chemical test sample was performed by a licensed health care professional or any other individual
