FORTY-EIGHTH DAY

HALL OF THE HOUSE OF REPRESENTATIVES,
TOPEKA, KS, Tuesday, March 21, 2023, 11:00 a.m.

The House met pursuant to adjournment with Speaker pro tem Carpenter in the chair.

The roll was called with 120 members present.

Reps. Concannon and Poetter Parshall were excused on verified illness.

Reps. Bloom, Featherston and Poskin were excused on excused absence by the Speaker.

Prayer by Chaplain Brubaker:

Creator God,
thank You for this beautiful first full
day of springtime.
With the new season, comes an excitement
of new beginnings and new life.
Remind us what new beginnings really mean.
Spring is a metaphor for change –
some changes we like, others we don't.
To all these changes we ask the gift of Your perspective
beckoning us to expectation, hope and rebirth.
Just as the sunlight and rain are reminders
that You are at work renewing the earth,
help us to realize that You are also at work
at renewing our lives.
This I pray in Your Name, Amen.

The Pledge of Allegiance was led by Rep. Louis Ruiz.

INTRODUCTION OF GUESTS

There being no objection, the following remarks of Rep. Goetz are spread upon the Journal:

World Down Syndrome Day (WDSDD), 21 March, is a global awareness day which has been officially observed by the United Nations since 2012. In March of 2019 the Kansas House of Representatives recognized WDSDD in statute.

The date for WDSDD being the 21st day of the 3rd month, was selected to signify the uniqueness of the triplication (trisomy) of the 21st chromosome which causes Down syndrome.

Why mark WDSDD?

On this one day we have a chance to make a change.
All around the world, people with Down syndrome are treated badly...

- **They are denied a quality education.**
- **They are denied good health care.**
- **They are denied the chance to work and earn their own money.**
- **They are not allowed to make decisions about their own lives.**
- **Their voices are not heard!**
- **So, every year on March 21st we created a single global voice advocating for the rights and well-being of people with Down Syndrome.**

Each year for World Down Syndrome Day (WSD) we work with the global Down syndrome community to choose a global campaign message.

For World Down Syndrome Day 2023, we are calling for people and organizations around the world to be **With Us Not For Us**.

What does this mean?

- We want to be treated fairly and to have the same opportunities as others.
- We want the freedom, and the support, to make our own choices.
- We want to be involved in the work of organizations.
- We want the organizations that represent us to be included in decision-making.

About Down Syndrome Innovations:

Down Syndrome Innovations, an organization I wanted to highlight today, is a non-profit 501 (c)(3) organization located in Mission, KS, which serves and champions people with Down syndrome across the Midwest region, and all across our great state.

Their mission is to provide life-changing support and services that enable people with Down syndrome to live to their fullest potential.

They support people with Down syndrome – and their families – throughout the lifespan, from prenatal diagnosis all the way through late adulthood. Down Syndrome Innovations was founded in 1984 and serves as the expert resource and lead community mobilizer, sharing knowledge and creating solutions for people with Down syndrome.

About KCDD:

The Kansas Council on Developmental Disabilities, also represented here today, has a mission to empower individuals with intellectual and developmental disabilities (I/DD) and their families to lead systems change, build capacity, and advocate for inclusive, integrated, accessible communities where everyone belongs and thrives. KCDD believes that all people with intellectual and developmental disabilities live, learn, work, play, belong, and thrive in the community they choose.

Solving the unemployment crisis for our disability community is a key and critical priority of the disability community.

Kansas has been a recognized leader in crafting legislation with the intention to create more competitive integrated employment (CIE) for people with disabilities.

Kansas was the first state in the nation to adopt Employment First legislation through the Employment First Initiative Act in 2011. (40 other states have followed our lead since 2011.) This law established Employment First as the official policy of the great State of Kansas with the intent to increase the number of Kansas residents with disabilities who are employed in competitive and integrated settings.

Yet, people with disabilities, especially those with I/DD, still remain the largest unemployed population in Kansas and around the country.

Despite policies like Employment First, even in Kansas, employment rates and outcomes for individuals with I/DD, in Kansas, still need more work:

- *There are only 13,847 Kansans with I/DD known to state agencies (there are many other individuals and families across the state)*
- *Of those, only 6.7% (933) are competitively employed, and only 2.0% (271) of all Kansans with I/DD receive Supported Employment Services.*
- *What we have been doing, is not working and we need innovative and new solutions to advance disability hiring in Kansas.*

CALL TO ACTION

We need more investments in disability hiring in the private sector - from Main Street to Wall Street, companies need to prioritize disability inclusion, and more focus on local, private sector solutions to help many more Kansans with I/DD obtain competitive integrated employment and ensure the right incentives are in place statewide.

This is why we need organizations like Down Syndrome Innovation (DSI) driving innovative programs, which focus on getting individuals with Down syndrome career ready.

And we need statewide organizations, like KCDD, to ensure best practices and innovation is happening not just in our big cities but localized solutions and programs that lift every Kansan with I/DD up and ensure they have the ability to work, thrive and contribute to society.

Rep. Goetz introduced his following guests:

- **Amanda Myers**, representing the team at Down Syndrome Innovations
- **Sara Weir**, Executive Director of KS Developmental Disabilities Council
- **Jarrod Sanderson**, Chief Operating Office of Nautical Fulfillment & Logistics, an employment partner of Down Syndrome Innovations

Our special guests, and the reason we are celebrating today:

- **Caleb Welch** (21 yrs old)
- **Lola Kernell** (18 yrs old)
- **Genesis Ortiz** (21 yrs old)
- **Greta Foye** (42 yrs old)
- **John Roberts** (54 yrs old)
- **Heather Hoback** (25 yrs old)
- **Crosby Orlando** (6 yrs old) and his mother, Sarah Jahnke

In the gallery are more individuals with Down syndrome who we are celebrating today, parents, Down Syndrome Innovations executive leadership and staff, and more employment partners.

House of Representative Colleagues, I invite you to help me congratulate these amazing individuals, families and organizations on this WSD 2023!

PERSONAL PRIVILEGE

There being no objection, the following remarks of Rep. Will Carpenter are spread upon the Journal:

Rep. Carpenter was joined on the floor by fellow sponsors of **HR 6017**.

This resolution recognizes and celebrates the 50th anniversary of the National Wild Turkey Federation and salutes the organization, its chapters, and members from across Kansas and the United States for their tremendous efforts to further scientific, state-led wildlife management and the conservation of America's wild turkey and its habitat.

Over the course of the past 50 years, the National Wild Turkey Federation and millions of members and chapters across the nation have worked with state, federal, and nongovernmental partners to promote wild turkey conservation and the preservation of our hunting heritage.

Since 1985, the National Wild Turkey Federation, its members, and chapters have invested more than half a billion dollars to conserve or enhance more than 22 million acres of critical wildlife habitat, forests, and grasslands across public and private lands.

In addition to being the largest and longest-serving nongovernmental stewardship partner of the USDA Forest Service, the National Wild Turkey Federation state chapters have successfully partnered with the Kansas Department of Wildlife & Parks in its restoration efforts.

The return of the of the wild turkey from the brink of extinction is one of the greatest conservation success stories in American history. Wild turkeys were virtually gone from the state by the early 1900s, but through a series of turkey releases in the 1960's and 70's, there now exists a stable, robust turkey population.

We recognize and celebrate the 50th anniversary of the National Wild Turkey Federation and salute their tremendous efforts to further scientific, state-led wildlife management and the conservation of America's wild turkey and its habitat. We wish the National Wild Turkey Federation, its members, and chapters the best for the future as they continue to work across land-ownership boundaries to increase healthy forests and wildlife habitat, clean and abundant water, and robust outdoor recreational opportunities across the country.
