House Committee on Commerce, Labor and Economic Development

Proponent of HB 2766, written testimony only

Respected Chair Tarwater and Committee Members,

I am a proponent of HB 2766.

We must take measures to protect Kansas from foreign adversaries. Right now, our Johnson County Commissioners have given incentives (our tax money) and have approved the sale of a building at New Century Airport to CNANO, which has affiliations with CCP (Chinese Communist Party). **The commissioners are aware of this affiliation, yet they have done nothing to stop the sale.** They are putting economic growth above the safety and security of our state and county.

The CCP is a threat to the United State and Kansas. Please pass out HB 2766 favorably.

Most sincerely,

Jill O'Connor

Overland Park, Kansas
