

Chairperson Williams and K-12 committee,

Thank you for taking time to listen to my written testimony on HB2612. As I reviewed this bill, there must be an assumption that school districts are not following established laws.

I believe the state legislature should allow the State Board of Education to perform their established duties. School accreditation is more than a series of numbers or a disagreement on how dollars should be used or how a report should be completed. Schools are required to follow state laws and State Board of Education regulations. If schools don't show growth or meet the expectations, districts are provided the opportunity to review the process while KSDE provides guidance and support. Accreditation affects every student in a school district and should not be used as a punitive punishment based on the interpretation of a law. Accreditation should remain in the hands of the department who have the staff, skills, understanding, and experience working with schools and school districts; the resources to support all schools.

Another concern with the bill is a state audit must be performed by KSDE to reinstate the district to accredited status. Every auditor I have ever come in contact with only sees numbers. They pay no attention as to why our numbers might have changed. The auditors are already overwhelmed with the caseload so adding to their duties will only diminish the fidelity of their work.

It is a known fact that the legislature has been able to break the law for so many years by not fully funding special education. The question could also be asked, knowing the past history of the Kansas budget, why did it take multiple lawsuits before the legislature fully funded general education? Possibly because of the discrepancy in interpretation of what is fully funded. Please don't get schools caught up in the middle of interpreting the laws and divert them from their role of educating the students.

In summary, the schools are governed by the State School Board and LOCALLY elected boards of education. Our job is hard enough, please don't make it harder by micromanaging school districts. Please allow our local boards to monitor educators and the daily work they perform. If they are intentionally breaking the law, I'm sure our boards can handle the issue.

Sincerely,
Dan Frisby, Supt.
