

Senate Bill 209

Proponent

02/13/2023

Honorable Chairman and Committee Members,

This past year I voted in August and November and both times I took advantage of our state's early vote by mail opportunity. It was very convenient to use it and I am very appreciative of that. However, I am of the opinion that no matter how one chooses to vote in Kansas, all votes should be received by a certain day and time. That is indeed only fair. Additionally, I believe that by extending the ballot receipt deadline, the opportunity for illegal ballot harvesting increases substantially and people's faith in our voting process takes a big hit.

I encourage you all to support Senate Bill 209 and enforce the same ballot receipt deadline on all voters.

Thank you

Seth Graber

Lenexa, Kansas
