SB352

Proponent

Written Only

Chairman Gossage and Members of the Senate Public Health & Welfare Committee,

I am submitting my testimony in being a proponent of SB352. I support most of the bill. COVID changed the landscape of the medical field and not for the better. It should be up to the patient to allow who they want to see and who they do not want to see. I understand for certain situations like the ICU, there needs to be certain rules. I would like to see a change to page 2, line 2, section 2. I believe if someone is at their end of life, only allowing two people in the room is unacceptable. The family should be able to send them off, regardless of how many that is. Again, I am voicing my support for bill SB352.

Respectfully,

Brett Anderson
