SB 49 - Light-Mitigation for New Wind Farms

Written-only

Proponent

FROM: Zack Pistora, Kansas Sierra Club

Phone: 785-865-6503 / Email: zackpistora@gmail.com

TO: Senate Utilities Committee

Chairman Olson and Honorable Members of the Committee,

Thank you for the opportunity to provide remarks on SB 49, which would require developers, owners, or operators to initiate the process for installing light-mitigating technology per approval of the Federal Aviation Administration for new wind farms.

**In our view, SB 49 demonstrates a good-faith response by industry to address concerns of the visual impact of wind turbine lighting. We support SB 49.**

The Sierra Club, including the Kansas Chapter, has been very proactive and sensitive to wind siting impacts for decades now. That is why the Kansas Chapter developed a fair and sensible position in 2010 that provides for respect for landowners' property rights, public safety, and environmental sustainability, which includes lighting impacts.

*Federal aviation rules require specific lighting on turbines; this lighting should always be minimized for aesthetic reasons, unless specific lighting is shown to reduce bird or bat mortality.*

Our Sierra Club organization, nationally, echoes the same sentiment, *"The Sierra Club recognizes that all forms of power generation entail environmental tradeoffs, and that there are drawbacks to wind development. The most contentious issues include visual and wildlife impacts..."* Still, *"the Sierra Club believes that in most instances, many of the negative impacts of wind can be managed... we believe that with adequate site planning the benefits of wind power in reducing the threat of global warming and pollution will substantially outweigh wind's negative impacts."*[As stated in the Sierra Club's national wind siting advisory].

**Sierra Club believes that wind developers have a responsibility to be good neighbors and we feel SB 49 helps fulfill that responsibility. We wish other industries also would follow this example of leadership and social responsibility.**

Thank you for including these thoughts into your evaluation and please advance SB 49.

Zack Pistora | Legislative Director and State Lobbyist, Kansas Chapter of Sierra Club

*The Sierra Club is the largest grassroots environmental organization dedicated to enjoying, exploring, and protecting our great outdoors. The Kansas Chapter represents our state's strongest grassroots voice on environmental matters for nearly fifty years.*
