(4) has paid all fees required for licensure prescribed in this act, which shall not be refundable.

(b) The board may issue a temporary license to an applicant seeking licensure as a perfusionist when such applicant meets the requirements for licensure or meets all the requirements for licensure except examination and pays to the board the temporary license fee as required under section 8, and amendments thereto. Such temporary license is valid (1) for one year from the date of issuance or (2) until the board makes a final determination on the applicant's request for licensure. If the licensee fails to submit an application for renewal on a form provided by the board, or fails to pay the renewal fee by the date of expiration, the board shall give a second notice to the licensee that the license has expired and the license may be renewed only if the application for renewal, the renewal fee, and the late renewal fee are received by the board within the thirty-day period following the date of expiration and that, if both fees are not received within the thirty-day period, the license shall be deemed canceled by operation of law and without further proceedings.

(c) The board may require any licensee to submit to a continuing education audit and provide to the board evidence of satisfactory completion of a program of continuing education required by rules and regulations of the board.

(d) Any license canceled for failure to renew may be reinstated upon recommendation of the board. An application for reinstatement shall be on a form provided by the board, and shall be accompanied by payment of the reinstatement fee and evidence of completion of any applicable continuing education requirements. The board may adopt rules and regulations establishing appropriate education requirements for reinstatement of a license that has been canceled for failure to renew.

(e) The board, prior to renewal of a license, shall require the licensee, if in the active practice of perfusion within the state, to submit to the board evidence satisfactory to the board that the licensee is maintaining a policy of professional liability insurance. The board may require any licensee to provide to the board evidence of malpractice insurance as required by rules and
regulations of the board during an audit. The board shall fix by rules and regulations the minimum level of coverage for such professional liability insurance.
