

2012 Kansas Statutes

12-2009. Cables and equipment; map required to be filed. Cities may by ordinance require the filing with the city by the person, firm or corporation providing cable television service of a proper map showing and describing the exact location of all of its facilities within the city streets, alleys and public ways including underground cables and equipment.

History: L. 1972, ch. 49, § 4; March 24.
