

2012 Kansas Statutes

19-27a18. Federal aid for costs; bonds. The governing body of any sewer district may apply for and accept grants of funds, materials or labor from the federal government or any departments thereof in the construction of sewer systems. The governing body may enter into any agreements required by the federal laws or the rules and regulations of any federal department to which the application is made. If assistance is granted, the governing body may issue bonds of the county for the remainder of the cost of the project.

History: L. 1983, ch. 99, § 19; July 1.
