

2012 Kansas Statutes

66-1280. New coal-fired electricity generating facility; purchase of Kansas coal required; exceptions. (a) Any new coal-fired electricity generating facility in Kansas, construction of which commences on or after the effective date of this act, shall purchase Kansas coal for at least 5% of its coal requirements. For the purposes of this section, "Kansas coal" shall have the meaning ascribed thereto in K.S.A. 2012 Supp. 79-32,228, and amendments thereto.

(b) The provisions of this section shall apply if the cost of the Kansas coal, including costs of transportation and handling at the new coal-fired electricity generating facility, is:

(1) Competitive to the cost of the out-of-state coal supply the owner or operator of the new coal-fired electricity generating facility is using to meet its remaining coal supply requirements;

(2) sold on comparable contractual terms and specification; and

(3) of an acceptable quality for use in the new coal-fired electricity generating facility.

This section shall not apply if the use or purchase of Kansas coal will result in the owner or operator of the new coal-fired electricity generating facility violating its air permit or a contractual obligation to which the owner or operator is subject.

History: L. 2009, ch. 141, § 31; May 28.
