Dear Chairman Kleeb and Honorable Members of the Commerce Committee,

As a small grocery store owner I have great interest in seeing HB 2206 passed. My store, African Angle Merchant in Olathe, Kansas, is a grocery store that specializes in African, Indian, Pakistani, Bangladeshi, and Middle Eastern groceries and spices.

My customers tell me every day they would like the opportunity to purchase adult beverages in our stores. I believe consumers, not the government, should decide where they want to buy legal products. Arbitrarily restricting customer choice impairs the market place and frustrates consumers.

Please enact legislation that gives your constituents, my customers, exactly what they want – convenience and choice.

Sincerely,

Robert Moses
