*2000-2010 figures are based on historic budget narrative from the former Kansas Department of Animal Health and can not be verified with licensee database transferred to the Kansas Department of Agriculture due to the way the data was stored.

**2011 figures are not available.

The chart below shows the actual frequency of inspection per license type for the Animal Facilities Inspection program from July 2011 to Oct 2012.

All of the positions in the program were not full and functioning during this time frame. Additionally, this chart does not include unlicensed investigations or facility types without regularly scheduled inspections.

License Type	As of 10/3/12 Active	Inspections 7/1/11- 10/3/12 Count	Average number of inspections per year, by License Type Avg	Average Inspections per facility per year, by License Type Avg	Average Interval (months) Interval
Animal Breeder (most USDA licensed)	151	189	142	0.94	13
Animal Breeder and Distributor	12	17	13	1.06	11
Animal Distributor	4	5	4	0.94	13
Group Home Shelter	37	30	23	0.61	20
