HB 2049—Am. by SC
1

82a-736, and amendments thereto, shall be accompanied by an application
2
fee established by rules and regulations adopted by the chief engineer in an
3
amount not to exceed $400 for the five-year period covered by the permit.
4
(e) Notwithstanding the provisions of K.S.A. 82a-714, and
5
amendments thereto, the applicant is not required to file a notice of
6
completion of diversion works nor pay a field inspection fee. The chief
7
engineer shall not conduct a field inspection of the diversion works
8
required by statute for purposes of certification nor issue a certificate of
9
appropriation for a term permit.
(f) A request to extend the term of a term permit in accordance with
10
the rules and regulations adopted by the chief engineer shall be
11
accompanied by the same filing fee applicable to other requests for
12
extensions of time as set forth in K.S.A. 82a-714, and amendments thereto.
(g) An application to change the place of use, point of diversion, use
13
made of water, or any combination thereof, pursuant to K.S.A. 82a-708b,
14
and amendments thereto, shall not be approved for a term permit.
(h) The chief engineer shall adopt rules and regulations to effectuate
15
and administer the provisions of this section.
Sec. 12. K.S.A. 2012 Supp. 82a-714 is hereby amended to read as
1
follows: 82a-714. (a) Upon the completion of the construction of the
works and the actual application of water to the proposed beneficial use
within the time allowed, the applicant shall notify the chief engineer to that
10
effect. The chief engineer or the chief engineer's duly authorized
11
representative shall then examine and inspect the appropriation diversion
works and, if it is determined that the appropriation diversion works have
12
been completed and the appropriation right perfected in conformity with
13
the approved application and plans, the chief engineer shall issue a
14
certificate of appropriation in duplicate. The original of such certificate
shall be sent to the owner and shall be recorded with the register of deeds
in the county or counties wherein the point of diversion is located, as are
other instruments affecting real estate, and the duplicate shall be made a
15
matter of record in the office of the chief engineer.
(b) Not later than 60 days before the expiration of the time allowed in
the permit to complete the construction of the appropriation diversion
works or the time allowed in the permit to actually apply water to the
proposed beneficial use, the chief engineer shall notify the permit holder
by certified mail that any request for extension of such time must be filed
with the chief engineer before the expiration of the time allowed in the
permit.
(c) Unless the applicant requests an extension or the certificate has
not been issued due to the applicant's failure to comply with reasonable
requests for information or to allow the opportunity to examine and inspect
the appropriation diversion works, as necessary for certification, the chief
engineer shall certify an appropriation:

(1) Before July 1, 2004, if the time allowed in the permit to perfect the water right expired before July 1, 1999, except in those cases in which abandonment proceedings pursuant to K.S.A. 82a-718, and amendments thereto, are pending on July 1, 2004;

(2) before July 1, 2006, in such cases in which an abandonment proceeding was pending pursuant to K.S.A. 82a-718, and amendments thereto, on July 1, 2004; or

(3) not later than five years after the date the applicant notifies the chief engineer of the completion of construction of the works and the actual application of water to the proposed beneficial use within the time allowed, in all other cases.

If the chief engineer fails to issue a certificate within the time provided by this subsection, the applicant may request review, pursuant to K.S.A. 2012 Supp. 82a-1901, and amendments thereto, of the chief engineer's failure to act.

(d) Except for works constructed to appropriate water for domestic use, each notification to the chief engineer under subsection (a) shall be accompanied by a field inspection fee of $400, or on and after July 1, 2015, a fee of $200, or on and after July 1, 2019, a fee of $200, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of $200. Failure to pay the field inspection fee, after reasonable notice by the chief engineer of such failure, shall result in the permit to appropriate water being revoked, forfeiture of the priority date and revocation of any appropriation right that may exist.

(e) A request for an extension of time to: (1) Complete the diversion works; or (2) perfect the water right, shall be accompanied by a fee of $50, or commencing July 1, 2002, and ending June 30, 2015, a fee of $50, or commencing July 1, 2015, a fee of $100.

(f) A request to reinstate a water right or a permit to appropriate water which has been dismissed shall be filed with the chief engineer within 60 days of the date dismissed and shall be accompanied by a fee of $100, or commencing July 1, 2002, and ending June 30, 2015, a fee of $100, or commencing July 1, 2015, a fee of $200.

(g) All fees collected by the chief engineer pursuant to this section shall be remitted to the state treasurer as provided in K.S.A. 82a-731, and amendments thereto.

Sec. 13. K.S.A. 2012 Supp. 82a-727 is hereby amended to read as follows: 82a-727. (a) Subject to existing water rights and the principle of beneficial use, the chief engineer may grant upon application made therefor temporary permits and extensions thereof to appropriate water in
any case where the public interest in such water will not be unreasonably
or prejudicially affected, except that the chief engineer shall not grant any
such permit to appropriate fresh water in any case where other waters are
available for the proposed use and the use thereof is technologically and
economically feasible. No such temporary permit or any extension thereof
shall be granted for a period of time in excess of six months. Each
application submitted for a temporary permit or extension thereof shall be
accompanied by an application fee of $200, or on and after July 1, 2015, a
fee of $100, or on and after July 1, 2019, a fee of $100.
(b) The chief engineer shall adopt rules and regulations to effectuate
and administer the provisions of this section.
(c) Nothing in this section shall be deemed to vest in the holder of
any permit granted pursuant to provisions of this section any permanent
right to appropriate water except as is provided by such permit.
(d) All fees collected by the chief engineer pursuant to this section
shall be remitted to the state treasurer as provided in K.S.A. 82a-731, and
