HOUSE BILL No. 2289

By Committee on Education

AN ACT concerning schools; relating to curriculum standards; amending K.S.A. 2012 Supp. 72-6439 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

New Section 1. No school district, nor the department of education nor the state board of education shall expend any moneys to implement the set of educational curriculum standards for grades kindergarten through 12 established by the common core state standards initiative.

Sec. 2. K.S.A. 2012 Supp. 72-6439 is hereby amended to read as follows: 72-6439. (a) In order to accomplish the mission for Kansas education, the state board of education shall design and adopt a school performance accreditation system based upon improvement in performance that reflects high academic standards and is measurable.

(b) (1) The state board shall establish curriculum standards which reflect high academic standards for Kansas education in the core academic areas of mathematics, science, reading, writing and social studies. The curriculum standards shall be reviewed at least every seven years. Nothing in this subsection shall be construed in any manner so as to impinge upon any district's authority to determine its own curriculum.

(2) No curriculum standards under subsection (b)(1) shall include the set of educational curriculum standards for grades kindergarten through 12 established by the common core state standards initiative.

(c) The state board shall provide for statewide assessments in the core academic areas of mathematics, science, reading, writing and social studies. The board shall ensure compatibility between the statewide assessments and the curriculum standards established pursuant to subsection (b). Such assessments shall be administered at three grade levels, as determined by the board. The state board shall determine performance levels on the statewide assessments, the achievement of which represents high academic standards in the academic area at the grade level to which the assessment applies. The state board should specify high academic standards both for individual performance and school performance on the assessments.

(d) Each school in every district shall establish a school site council composed of the principal and representatives of teachers and other school personnel, parents of pupils attending the school, the business community,
and other community groups. School site councils shall be responsible for
providing advice and counsel in evaluating state, school district, and
school site performance goals and objectives and in determining the
methods that should be employed at the school site to meet these goals and
objectives. Site councils may make recommendations and proposals to the
school board regarding budgetary items and school district matters,
including but not limited to, identifying and implementing the best
practices for developing efficient and effective administrative and
management functions. Site councils also may help school boards analyze
the unique environment of schools, enhance the efficiency and maximize
limited resources, including outsourcing arrangements and cooperative
opportunities as a means to address limited budgets.

Sec. 3. K.S.A. 2012 Supp. 72-6439 is hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its
publication in the statute book.
