AN ACT concerning the Kansas department of health and environment;
relating to drug screening, criminal history record check and
fingerprinting of certain persons and employees; amending K.S.A.
2012 Supp. 75-4362 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

New Section 1. (a) The secretary of health and environment shall
require any person offered a position of employment in and any employee
of the office of laboratory services of the Kansas department of health and
environment that will have access to a secured biological laboratory to be
fingerprinted and submit to a state and national criminal history record
check. Such person offered a position of employment or employee shall be
given written notice that a fingerprinting and state and national criminal
history record check is required as a condition of initial and continued
employment. The fingerprints shall be used to identify such person offered
a position of employment or employee and to determine whether such
person offered a position of employment or employee has a record of
criminal history in this state or other jurisdiction. The secretary of health
and environment shall submit the fingerprints to the Kansas bureau of
investigation and the federal bureau of investigation for a state and
national criminal history record check. Local and state law enforcement
officers and agencies shall assist the secretary of health and environment
in the taking and processing of fingerprints of such persons offered
positions of employment or employees.

(b) The secretary of health and environment shall require any person
offered a position of employment in and any employee of the office of
laboratory services of the Kansas department of health and environment
that will have access to a secured biological laboratory to submit to a drug
screening as a condition of initial and continued employment. Such person
offered a position of employment or employee shall be given written
notice that a drug screening is required as a condition of initial and
continued employment. Drug screening shall be conducted as prescribed
by the secretary of administration.

(e)(b) The secretary of health and environment shall use the
information obtained from fingerprinting and criminal history for the
purposes of verifying the identification of any person offered a position of
employment or employee in the official determination of the eligibility of
such person or employee to perform tasks within the office of laboratory
services. If criminal history record information or results of drug screening
is used to disqualify a person offered a position of employment or
terminate an employee, such person offered a position of employment or
employee shall be informed in writing of the purpose of such
disqualification or termination from employment.

(d) As a condition of continued employment, any employee who
has access to a secured biological laboratory in the office of laboratory
services of the Kansas department of health and environment shall be
subject to periodic drug screenings and state and national criminal history
record checks at a frequency determined by the secretary.
