As Amended by House Committee

Session of 2014

HOUSE BILL No. 2487

By Committee on Utilities and Telecommunications

1-23

AN ACT concerning utilities; relating to the state corporation commission; concerning the issuance of certificates of public convenience and necessity; amending K.S.A. 2013 Supp. 66-131 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

Section 1. K.S.A. 2013 Supp. 66-131 is hereby amended to read as follows: 66-131. (a) No person or entity seeking to construct electric transmission lines as defined in K.S.A. 66-1,177, and amendments thereto, or common carrier or public utility, including that portion of any municipally owned utility defined as a public utility by K.S.A. 66-104, and amendments thereto, governed by the provisions of this act shall transact business in the state of Kansas until it shall have obtained a certificate from the corporation commission that public convenience and necessity will be promoted by the transaction of said business and permitting said applicants to transact the business of a common carrier or public utility in this state. In no event shall such jurisdiction authorize the corporation commission to review, consider or effect the facilities or rates charged for services or in any way the operation of such municipally owned or operated electric or gas utility within the corporate limits or outside but within three miles of the corporate limits of any city, or facilities, or rates charged for services or in any way the operation of facilities or their replacements now owned by any such utility. No prescribed rates, orders or other regulatory supervision of the corporation commission shall be contrary to any lawful provision of any revenue bond ordinance authorizing the issuance of revenue bonds to finance all or any part of the municipally owned or operated electric or gas utility so subjected to the jurisdiction of the corporation commission. This section shall not apply to any common carrier or public utility governed by the provisions of this act now transacting business in this state, nor shall this section apply to the facilities and operations of any municipally owned or operated utility supplying electricity or gas outside of the corporate limits of any municipality where such facilities and operations are in existence on the effective date of this act, but any extension of such facilities or any new facilities located outside of and more than three miles from the municipality's corporate limits, shall be subject to the requirements of this
section, nor shall this section apply to any municipally owned or operated
electric or gas utility furnishing electricity or gas to a facility owned or
jointly owned by such municipality and located outside the corporate
limits of such municipality.

(b) The commission shall issue a decision on a common carrier or
public utility's application for a certificate of public convenience and
necessity within 180 days of receiving the application. Nothing in this
subsection shall preclude an applicant and the commission from agreeing
to a waiver or an extension of the 180-day period. Applications for
commission approval of mergers, acquisitions or transmission only
certificates of public convenience and necessity shall not be subject to this
subsection.

(c) The commission shall issue a decision on a common carrier or
public utility's application for mergers or acquisitions within 300 days
of receiving the application. Nothing in this subsection shall preclude
an applicant and the commission from agreeing to a waiver or an
extension of the 300-day period. The commission shall expeditiously
process every application covered within this subsection.

Sec. 2. K.S.A. 2013 Supp. 66-131 is hereby repealed.

Sec. 3. This act shall take effect and be in force from and after its
publication in the statute book.
