The Senate Committee on Federal and State Affairs removed the contents of HB 2055 as passed by the House and recommended a substitute bill that addressed gaming.

The Senate Committee held a hearing on SB 215, which included the revisions to the southeast gaming zone legislation and also proposed new law relating to the distribution of gaming machines at racetrack gaming facilities. Testimony in support of the bill was provided by Senator LaTurner, Representative Grant, the Pittsburg Area Chamber of Commerce, and several private citizens. Testimony opposing the bill was provided by representatives of Kansas Entertainment, Stand Up for Kansas, and the Prairie Band Potawatomi Nation. Neutral testimony was provided by Senator Fitzgerald, Representative DeGraaf, and a Representative of the Kansas Health Institute.

The Senate Committee amended the provisions in SB 215 that pertained to the southeast gaming zone into the substitute bill.

The fiscal note on SB 215 as provided by the Division of the Budget indicates enacting provisions on the southeast gaming zone would require the Kansas Lottery to hire two or three employees for a newly opened gaming facility. The Kansas Lottery indicates that when negotiating contracts with gaming facility managers, it has required all of its gaming related expenses be reimbursed by the manager. Direct gaming expenses are billed directly to the specific gaming facility manager and indirect expenses are prorated to all managers.
