Conferees appearing before the Committee:

Constantine Cotsoradis, Deputy Secretary, Kansas Department of Agriculture (KDA) John Donley, Assistant General Counsel, Kansas Livestock Association (KLA) Mike Bodenhausen, Executive Director, Kansas Dairy Association

Others attending:

See attached list.

Senator Barnett introduced his "shadow", Colby Ratzloff from Emporia. Senator Lee introduced her "shadow" Larissa Liggett from Lincoln. Senator Francisco introduced her "shadow", Katie Rorick and her intern, Elizabeth Keever.

Chairman Taddiken welcomed the Kansas Ag Retailers' Association, and the Kansas Grain and Feed Association's Tomorrow's Agribusiness Leader's 2010 Class.

Secretary Svaty, Kansas Department of Agriculture (KDA) requested the introduction of a bill dealing with the water appropriation act, removing the requirement to divert water and allow for conservation to be considered a beneficial use. <u>Senator Francisco moved the introduction of the bill concerning the water appropriation act; seconded by Senator Huelskamp. Motion carried.</u>

Hearing on <u>SB 395</u> - Changes to dairy, milk and milk product statutes.

Kristen Kellems, Office of the Revisor of Statutes, gave an overview of <u>SB 395</u>. This bill makes changes in various statutes regarding changes to the dairy and milk product statutes.

Constantine Cotsoradis, Deputy Secretary, Kansas Department of Agriculture (KDA) testified in support of <u>SB 395.</u> (Attachment 1) He said that changes have been made to the dairy inspection program which have made the program more efficient. KDA's request for state general funds for this program was denied. He further stated that KDA has developed a fee package that will sustain the program. Mr. Cotsoradis said that without additional funds the dairy inspection program will likely be unfunded in 2012 and the dairy industry then may not be able to ship milk across state lines. He said that maintaining the dairy inspection program through the fee increases in this bill will ensure the viability of the dairy industry and its Grade "A" market.

Mr. Cotsoradis answered questions from the Committee

John Donley, Assistant General Counsel, Kansas Livestock Association (KLA) appeared as a proponent for <u>SB 395.</u> (Attachment 2) He said some efficiencies have been made in the dairy inspection program by the KDA over the last 12-18 months. Mr. Donley also said the KLA has some concerns with the state general fund versus the fee fund balance. The fee increases proposed in <u>SB 395</u> will sunset in 2015.

Mr. Donley offered to stand for questions.

Mike Bodenhausen, Executive Director, Kansas Dairy Association, offered testimony in support of <u>SB 395</u>. (<u>Attachment 3</u>) He noted that discussions with various stakeholder groups were held on the future of the Dairy Inspection Program. In response to these meetings, the program is now performance based and one Dairy Inspector was laid off. Mr. Bodenhausen said the dairy farmers recognize the budgetary situation the

state is facing and they are willing to do their part by agreeing to the fee increases.

Mr. Bodenhausen stood for questions.

Written testimony in opposition to <u>SB 395</u> was submitted by Randy McGinnis, Chief Operating Officer, Dairy Farms of America. (<u>Attachment 4</u>)

Hearing was closed on SB 395.

Chairman Taddiken asked members of the Leader Class 2010 to give their name and town.

Discussion was opened on <u>SB 394</u> - <u>Pesticide education</u>. A copy of proposed changes to <u>SB 394</u> was distributed to Committee members (<u>Attachment 5</u>). The proposed changes reflect a request from the professional trade associations to be included in the "other person" The first change is to strike line 15 and add "*any other educational institutions of this state or of any other state, state and federal agencies, or any other person*." Other proposed changes were:to delete the first "or", line 21 and "or of" at the end of the same line. Another change suggested was to add "*other*" in front of "person" in line 22. <u>Senator Bruce made a motion to adopt the proposed changes to SB 394</u>, seconded by Senator Lee. Motion carried. Amendment is adopted.

Motion was made by Senator Barnett to pass SB 394 as amended; seconded by Senator Bruce. Motion carried.

Discussion was opened on SB 393 - Department of Agriculture administrative hearings.

Ms. Kellems, explained the proposed amendments concerning hearing notice requirements (Attachment 6).

Senator Bruce moved adoption of the proposed amendments to SB 393; seconded by Senator Pyle. Motion carried.

A motion was made to pass SB 393 as amended; seconded by Senator Bruce. Motion carried

The next meeting is scheduled for February 2, 2010.

The meeting was adjourned at 9:18 a.m.

Testimony on Senate Bill 395 to the Senate Agriculture Committee

by Constantine V. Cotsoradis Deputy Secretary Kansas Department of Agriculture

January 27, 2010

Good morning, Chairman Taddiken and members of the committee. I am Constantine Cotsoradis, deputy secretary of agriculture, and I am here in support of Senate Bill 395.

The dairy inspection program serves two main purposes. One is to provide consumer protection and confidence that milk is safe and wholesome. The other purpose is to provide inspections as specified in the interstate milk shippers' agreement. Failure to comply with this agreement could adversely affect the state's Grade "A" dairy market.

Representatives from the dairy industry and their respective associations met with us beginning soon after last session. We were in agreement that the dairy inspection program was important, but the questions of whether there were efficiencies that could be realized and how to fund the program left room for discussion.

I can report that we have made changes to the program, such as performance –based inspections, that have made the program more efficient. Also, despite having our request for state general funds denied, we have developed through our discussion with the stakeholder group a fee package that will sustain the program. This bill increases some fees and adopts some new fees but only at levels necessary to adequately fund the program.

We understand the reality of seeking a fee increase at this time, but the alternative is far less desirable. Without additional funds, the dairy inspection program likely will be unfunded in 2012 and the dairy industry then may not be able to ship their milk across state lines. This is a real possibility as we have had to suspend or cease other programs in the agency due to budget reductions.

The dairy industry is very important to this state's economy and to the rural areas in which they are located. Maintaining the dairy inspection program through the fee increases in this bill will ensure the viability of the dairy industry and its Grade "A" market.

I will answer questions at the appropriate time.

TESTIMONY

To: Senate Agriculture Committee Senator Mark Taddiken, Chairman

From: John Donley, Assistant General Counsel

Date: January 27, 2010

Re: SB 395 – Dairy Fee Bill

> The Kansas Livestock Association (KLA), formed in 1894, is a trade association representing over 5,000 members on legislative and regulatory issues. KLA members are involved in many aspects of the livestock industry, including seed stock, cow-calf and stocker production, cattle feeding, dairy production, grazing land management and diversified farming operations.

My name is John Donley, and I am Assistant General Counsel for the Kansas Livestock Association. I appreciate the opportunity to provide testimony and discuss KLA's position on SB 395.

Last year, KLA opposed a House bill that would increase the fees to fund the Kansas Department of Agriculture's Dairy Program. KLA had two main concerns with the proposal from last year. First, we felt that the Department could still find efficiencies within the program and a fee increase was not necessary. Second, the fee schedule proposed last year would have exacerbated the inequity in the current fee structure by relying more on large dairies.

Fortunately, the Department of Agriculture and other stakeholder groups were willing to compromise on these issues, and this bill is the result of that compromise. In order to become more efficient, the Department has gone to a performance based inspection schedule as well as finding other internal efficiencies within the program. With regards to the second issue of the inequity of the fee structure, KLA feels that the proposal in SB 395 is more equitable than last year's proposal because not as much of the burden to fund the Dairy Program will be placed on the larger dairies.

Essentially, SB 395 increases the fee charged to milk processors and distributors in the state from \$0.015 per 100 pounds to \$0.02 per 100 pounds of milk. While we recognize that much of this cost will flow through the marketplace and be a burden on producers, we also appreciate the fact that this proposal will not have as direct of an impact on dairy producers during a time where the dairy industry's profitability has significantly struggled.

The state's dairy inspection program is important because a state inspection is necessary to meet the requirements of the International Milk Shippers Agreement. However, it should also Senate Agriculture Committee

be noted that these inspections have a general public benefit. It is important to point out that this program should be funded through more state general fund dollars in the future to reflect the benefit the public receives. We understand that these are tough budgetary times and are therefore willing to agree to a fee increase that will sunset in 2015. However, this support comes with the desire that state general fund dollars will begin to provide a higher percentage of the funding of this program in the future.

KLA would encourage you to look favorably towards SB 395 and understand that the dairy industry understands the importance of providing a safe product to the consumer while allowing the growing Kansas dairy industry the continued opportunity to export our product out of this state. I would be happy to stand for questions at the appropriate time.

Testimony

To: Senate Agriculture Committee

Senator Mark Taddiken, Chairman

From: Mike Bodenhausen, Executive Director, Kansas Dairy Association

Date: January 27, 2010

Re: SB 395 – Dairy Fee Bill

My name is Mike Bodenhausen, and I am the Executive Director of the Kansas Dairy Association. I want to thank you for this opportunity to provide testimony in support of SB 395.

Having been in the dairy business myself for over 40 years, I fully understand the importance of a good Dairy Inspection Program. Without an effective program, we would not be able to sell and ship Grade A milk across state lines. Since Kansas only uses about 20% of the milk that is produced within the state, it is a <u>must</u> that we maintain a program that meets the requirements of the International Milk Shippers Agreement and the Pasteurized Milk Ordinance(PMO).

Last summer the Department of Agriculture began discussions with various stakeholder groups on the fate and future of the Dairy Inspection Program. It was very evident the program was in need of financial support. Our first response and request to the Department was to carefully scan the program for inefficiencies. Our second request was to begin looking at a Performance-Based Dairy Inspection Program. This program allows more flexibility to the number of inspections and is based on performance of past inspections. Yet this system allows the Dairy Inspection Program to meet the necessary standards and requirements needed to meet the PMO.

The Department met both of these challenges. One Dairy Inspector was let go and the Performance-Based Inspection Program was successfully implemented. This however, did not meet all the financial needs of the program. Thus we began discussing fee increases. Now we probably would not have had to go down this road had we continued to receive some State General Funds. But since we understand the budgetary situation the State is facing, we felt we could do our part. Since the Department was only asking for a ½ cent per hundred weight increase in inspection fees we felt this could be met. (This actually only amounts to about .04 cents per gallon). Because dairy producers had experienced a "disastrous" 2009, we suggested that the needed fee increase start will processors and distributors.

with

I want to extend my sincerest thanks to the Department of Agriculture for listening to and working with us on this issue. This is a program that the dairy industry in Kansas can be proud of and one that we <u>must all</u> continue to support, from producers to processors to consumers.

Senate Agriculture Committee January 27, 2010 Attachment 3-1

My passion for the dairy industry is never ending. Knowing and recognizing the importance of the Dairy Inspection Program leads me to asking you to support SB 395.

I would be more than happy to answer any questions at this time or at any other appropriate time.

3-2

Dairy Farmers of America (DFA) is extremely disappointed that Senate Bill No. 395 is requesting an increase in funds from industry sources to operate the Kansas dairy industry inspection programs going forward.

DFA understands that increases in dairy farm milk production levels and annual reductions in the number of dairy farms operating in Kansas, coupled with other farm inspection program changes i.e. performance based farm inspections stand behind the rationale for not requesting an increase in fees at the farm level at this time.

However the continual shift in the source of revenues to operate the Kansas dairy industry inspection programs from the State General Fund to industry funding is concerning and alarming. What was once many, many years ago a 50/50 relationship in those funding sources has become, without digging deeply into the numbers, closer to a 30% sourcing from the State General Fund and a 70% sourcing from industry.

DFA requests an immediate accounting to verify those funding relationships and an annual recalculation of that annual funding relationship. With the new language in Section 3 (k) and Section 4 (l) that provides the secretary authority to adjust license fees, DFA advocates for a commitment that (1) steps are taken to move that annual relationship closer to the 50/50 level each year and (2) no future increases in industry funding levels are considered unless the annual funding relationship has been brought closer to 50/50.

DFA thanks the committee for this opportunity to provide comments and along with its dairy farmer member/owners stand ready to assist in any way possible to make the Kansas Dairy Inspection program successful in a more equitable relationship between general funds and industry funds.

Sincerely,

- 1
