HEARING ON: HB2139 — Postsecondary education; tuition and fees for aliens.

Representative John Rubin supported HB2139 stressing the importance of the bill to enforcing the rule of law in our state and protecting the security of our citizens and homeland. (Attachment 1)

Kris Kobach spoke in favor of HB2139 indicating he believes Kansas is currently in violation of the federal law stating no state shall give in-state tuition benefits to illegal aliens unless the state extends the same tuition benefits to out-of-state United States citizens. He views current law as providing an incentive to the violation of law by allowing in-state tuition to illegal aliens while not allowing it for aliens that have a valid student visa, thus denying legal students the same benefit. (Attachment 2)

Robert Wood stated his view that Kansas is currently punishing American citizens who live across state lines by making them pay full tuition rates while giving special benefits to illegal residents who come from another country. He believes Kansas is in violation of federal law and asked the committee to pass HB2139. (Attachment 3)

Dennis Bixby supported HB2139 telling the story of his daughter's death in a vehicle accident involving an illegal alien driving without a driver's license and stating he is against baiting people to come here illegally by offering benefits like in-state tuition. He encouraged committee members to strongly consider what the total cost of so-called cheap labor is doing to the state. (Attachment 4)

Dale Chaffee encouraged members to stand in compliance with their oath of office to serve the legal, tax-paying citizens of Kansas by passing HB2139. (Attachment 5)

Representative Ponka-We Victors spoke against HB2139 stating her belief that Kansas is in good condition with federal law and indicating she believes it is a mistake to count these students as Kansas children for public school funding and then take away their right to in-state tuition. (Attachment 16)

Sister Therese Bangert spoke of her participation in the development of the current law and of wondering why some would want to throw up more barriers to these hard-working students' pursuit of higher education. She asked committee members to reject HB2139 as an effort to remove good education policy. (Attachment 17)

Carla Rivas-D'Amico gave opposition to HB2139 voicing her preference for the use of the term 'undocumented student' in the place of 'illegal alien' and sharing her concern about the barriers these students face. (Attachment 18)
