AN ACT concerning school districts; relating to capital improvements; creating the school district bond project review board; amending K.S.A. 2015 Supp. 75-2319 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

New Section 1. (a) There is hereby established the school district bond project review board. The board shall consist of the following seven members:

1 The chairperson of the committee on appropriations of the house of representatives;
2 the chairperson of the committee on ways and means of the senate;
3 the ranking minority member of the committee on appropriations of the house of representatives;
4 the ranking minority member of the committee on ways and means of the senate;
5 one member of the state board of education appointed by the state board of education; and
6 two members selected by the governor who are actively involved in the construction industry.

(b) A majority of all members of the board shall constitute a quorum. All actions of the board shall be taken by a majority of all members of the board.

(c) Members of the board shall receive expenses, mileage and subsistence as provided in K.S.A. 75-3223(e), and amendments thereto.

(d) For general obligation bonds that have not been approved for issuance by an election prior to January 1, 2016, no capital improvement state aid shall be paid pursuant to K.S.A. 75-2319, and amendments thereto, unless such payment is approved by the board in accordance with this section. A school district shall submit an application to the school district bond project review board for approval of capital improvement state aid. The application shall be submitted in such form and manner as prescribed by the board, and shall include a description of the project that is the basis for the application.

(e) The board shall review all submitted applications and approve or deny the disbursement of capital improvement state aid under K.S.A. 75-
2319, and amendments thereto, based on whether the project for which
such bonds are to be issued is for instruction. As part of its review of an
application, the board may conduct a hearing and provide the applicant
school district an opportunity to present testimony regarding the project. In
determining whether a project is for instruction, the board shall consider
the extent to which the facility being constructed or improved is to be
utilized by the school district for direct instruction of students of the
school district.

(f) If the board approves an application, the board shall determine the
extent to which the facility being constructed or improved is to be utilized
by the school district for direct instruction of students of the school
district, and shall express such utilization as a percentage of the total
utilization of such facility. In making such determination, the board shall
only consider basic building planning and design to be a part of the facility
that is utilized for direct instruction of students. Any architectural
enhancements to a facility beyond basic building planning and design shall
not be deemed part of the facility that is utilized for direct instruction of
students. The board shall certify to the state board of education that such
application was approved and the percentage of utilization for direct
instruction.

(g) If the board denies an application, then within 15 days of such
denial, it shall send written notice of such denial to the superintendent of
such school district. The decision of the board shall be final. Denial of an
application by the board shall not prohibit a school district from continuing
to hold an election to approve the issuance of bonds by the school district.

(h) The provisions of this section shall not apply to any school district
which is not entitled to capital improvement state aid under K.S.A. 75-
2319, and amendments thereto.
