Subject: K.S.A. 58-3035 and K.S.A. 58-3062 [SECURE]

Thank you for taking the time to read my email. As a real estate agent in the state of Kansas, I am writing to voice my support for the bill being presented to the House Commerce Committee on February 12th, 2018, for proposed legislation as an amendment to K.S.A. 58-3035 and K.S.A. 58-3062 which are targeted at repealing the existing sections. To take away the real estate benefits programs that we are currently able to offer to past and present military members and their families, (as well as members of other affinity type organizations) would be a complete dis-service to our military heroes. Additionally, removing these benefits would have a direct impact on the ability to purchase real estate in Kansas for a significant portion of the military community. It is our economic and moral responsibility to keep these benefits in place as they exist today.

Kindest regards,

Kelli Becks
