

**Senate Committee on Assessment and Taxation
Opposition to Senate Bill 192
Presented by Eric Stafford, Vice President of Government Affairs**

Tuesday, March 14, 2017

Madam Chair and members of the committee, my name is Eric Stafford, Vice President of Government Affairs for the Kansas Chamber. The Kansas Chamber appreciates the opportunity to testify in opposition to Senate Bill 192 which, like HB 2178 vetoed by Governor Brownback repeals the small business tax cuts, increases personal income tax rates retroactively to January 1, 2017, and eliminates the “ratchet” used to lower income tax rates through growth in state receipts.

Our 2017 legislative agenda adopted by our board of directors continues to support efforts to lower, and eventually eliminate, personal income taxes. The growth trigger found in K.S.A. 79-32,269 calls for a reduction in income taxes computed by the secretary of revenue when SGF receipts from the preceding fiscal year increase by more than 2.5% less increases in payments to KPERs. Eleven states plus the District of Columbia have passed some form of growth trigger used to lower taxes through growth in tax receipts.

SB 192 proposes to freeze a statutory rate reduction on the lowest income tax bracket at the current level of 2.7%, the current top bracket of 4.6% becomes the middle bracket, and last adds a third tier of income taxes at 6.1% on income over \$70,00 for married filing jointly, or \$35,000 for individuals. In addition to granting taxpayers a higher tax burden, SB 192 proposes to make that tax increase retroactive on all Kansas taxpayers, including small businesses.

We believe this legislature should focus on adopting efficiencies from the A&M study to achieve cost savings rather than increasing taxes. Historical spending in our state has far outpaced the rate of inflation. Had spending been held reasonably in line with inflation, we would not be having this discussion today.

Fairness and equity has been a commonly used phrase as this committee looks at comprehensive tax reform. One piece of the 2015 tax package eliminated income taxes on the lowest wage earners of the state; married individuals filing jointly with income of \$12,500 or less and all other individuals with taxable income of \$5,000 or less. SB 192 keeps those individuals income tax rates at zero. If supporters of SB 192 are seeking fairness throughout the tax code, we would think they would support reinstating income taxes on those taxpayers as well.

Thank you for the opportunity to testify in opposition to SB 192, and I am happy to answer any questions the committee may have at the appropriate time.

The Kansas Chamber, with headquarters in Topeka, is the leading statewide pro-business advocacy group moving Kansas towards becoming the best state in America to do business. The Chamber represents small, medium and large employers all across Kansas.
