According to Legislative Administrative Services, enactment of HB 2548 would require expenditures totaling \$49,900, all from the State General Fund, for programming changes to the Kansas Legislative Information System and Services (KLISS). The agency notes that extensive regression and acceptance testing of the modifications would be necessary to ensure the entire KLISS bill process, from bill drafting to statute update and publication, functions properly. Any fiscal effect associated with HB 2548 is not reflected in *The FY 2019 Governor's Budget Report*.
