(8) Except as otherwise provided by law, the actuarial cost of any legislation enacted by the Kansas legislature, except the actuarial cost of K.S.A. 74-49,114a, and amendments thereto, shall be in addition to the employer contribution rates certified for the employer contribution rate in the fiscal year immediately following such enactment. Such actuarial cost shall be determined by the qualified actuary employed or retained by the system pursuant to K.S.A. 74-4908, and amendments thereto, and reported to the system and the joint committee on pensions, investments and benefits.

(9) Notwithstanding the provisions of subsection (8), the actuarial cost of the provisions of K.S.A. 74-49,109 et seq., and amendments thereto, shall be first reflected in employer contribution rates effective with the first day of the first payroll period for the fiscal year 2005. (16) Notwithstanding any provision of law to the contrary, each participating employer shall remit quarterly, or as the board may otherwise provide, all employee deductions and required employer contributions to the executive director for credit to the Kansas public employees retirement fund within three days after the end of the period covered by the remittance by electronic funds transfer. Remittances of such deductions and contributions received after such date are delinquent. Delinquent payments due under this subsection shall be subject to interest at the rate established for interest on judgments under K.S.A. 16-204(a), and amendments thereto. (1) For general obligation bonds approved for issuance at an election held prior to July 1, 2015, the state board of education shall:

(A) Determine the amount of the assessed valuation per pupil (AVPP) of each school district in the state and round such amount to the nearest $1,000. The rounded amount is the AVPP of a school district for the purposes of this subsection (b)(1);

(B) determine the median AVPP of all school districts;

(C) prepare a schedule of dollar amounts using the amount of the median AVPP of all school districts as the point of beginning. The schedule of dollar amounts shall range upward in equal $1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the highest AVPP of all school districts and shall range downward in equal $1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the lowest AVPP of all school districts;

(D) determine a state aid percentage factor for each school district by
assigning a state aid computation percentage to the amount of the median AVPP shown on the schedule, decreasing the state aid computation percentage assigned to the amount of the median AVPP by one percentage point for each $1,000 interval above the amount of the median AVPP, and increasing the state aid computation percentage assigned to the amount of the median AVPP by one percentage point for each $1,000 interval below the amount of the median AVPP. Except as provided by K.S.A. 2016 Supp. 75-2319c, and amendments thereto, the state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district. The state aid percentage factor of a school district shall not exceed 100%. The state aid computation percentage is 25%;

(E) determine the amount of payments that a school district is obligated to make from its bond and interest fund attributable to general obligation bonds approved for issuance at an election held prior to July 1, 2015; and

(F) multiply the amount determined under subsection (b)(1)(E) by the applicable state aid percentage factor.

(2) For general obligation bonds approved for issuance at an election held on or after July 1, 2015, the state board of education shall:

(A) Determine the amount of the AVPP of each school district in the state and round such amount to the nearest $1,000. The rounded amount is the AVPP of a school district for the purposes of this subsection (b)(2);

(B) prepare a schedule of dollar amounts using the amount of the AVPP of the school district with the lowest AVPP of all school districts as the point of beginning. The schedule of dollar amounts shall range upward in equal $1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the highest AVPP of all school districts;

(C) determine a state aid percentage factor for each school district by assigning a state aid computation percentage to the amount of the lowest AVPP shown on the schedule and decreasing the state aid computation percentage assigned to the amount of the lowest AVPP by one percentage point for each $1,000 interval above the amount of the lowest AVPP. Except as provided by K.S.A. 2016 Supp. 75-2319c, and amendments thereto, the state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district. The state aid computation percentage is 75%;

(D) determine the amount of payments that a school district is obligated to make from its bond and interest fund attributable to general obligation bonds approved for issuance at an election held on or after July 1, 2015; and

(E) multiply the amount determined under subsection (b)(2)(D) by
the applicable state aid percentage factor.

(3) For general obligation bonds approved for issuance at an election held on or before June 30, 2016, the sum of the amount determined under subsection (b)(1)(F) and the amount determined under subsection (b)(2)(E) is the amount of payment the school district is entitled to receive from the school district capital improvements fund in the school year.

(4) For general obligation bonds approved for issuance at an election held on or after July 1, 2016, the amount determined under subsection (b)(2)(E) is the amount of payment the school district shall receive from the school district capital improvements fund in the school year, except the total amount of payments school districts receive from the school district capital improvements fund in the school year for such bonds shall not exceed the six-year average amount of capital improvement state aid as determined by the state board of education.

(A) The state board of education shall determine the six-year average amount of capital improvement state aid by calculating the average of the total amount of moneys expended per year from the school district capital improvements fund in the immediately preceding six fiscal years, not to include the current fiscal year.

(B) (i) Subject to clause (ii), the state board of education shall prioritize the allocations to school districts from the school district capital improvements fund in accordance with the priorities set forth as follows in order of highest priority to lowest priority:

(c) impact on the delivery of educational services as demonstrated by restrictive inflexible design or limitations on installation of technology; and

(d) energy usage and other operational inefficiencies as demonstrated by a district-wide energy usage analysis, district-wide architectural analysis or other similar evaluation.

(ii) In allocating capital improvement state aid, the state board shall give higher priority to those school districts with a lower AVPP compared to the other school districts that are to receive capital improvement state aid under this section.

(C) On and after July 1, 2016, the state board of education shall approve the amount of state aid payments a school district shall receive from the school district capital improvements fund pursuant to subsection
(b)(5) prior to an election to approve the issuance of general obligation bonds.

(5) The sum of the amounts determined under subsection (b)(3) and the amount determined or allocated to the district by the state board of education pursuant to subsection (b)(4), is the amount of payment the school district is entitled to receive from the school district capital improvements fund in the school year.

(c) The state board of education shall certify to the director of accounts and reports the entitlements of school districts determined under the provisions of subsection (b), and an amount equal thereto shall be transferred by the director from the state general fund to the school district capital improvements fund for distribution to school districts. All transfers made in accordance with the provisions of this subsection shall be considered to be demand transfers from the state general fund, except that all such transfers during the fiscal years ending June 30, 2013, June 30, 2014, 2017, June 30, 2015, 2018, and June 30, 2016, shall be considered to be revenue transfers from the state general fund.

(d) Payments from the school district capital improvements fund shall be distributed to school districts at times determined by the state board of education to be necessary to assist school districts in making scheduled payments pursuant to contractual bond obligations. The state board of education shall certify to the director of accounts and reports the amount due each school district entitled to payment from the fund, and the director of accounts and reports shall draw a warrant on the state treasurer payable to the treasurer of the school district. Upon receipt of the warrant, the treasurer of the school district shall credit the amount thereof to the bond and interest fund of the school district to be used for the purposes of such fund.

(e) The provisions of this section apply only to contractual obligations incurred by school districts pursuant to general obligation bonds issued upon approval of a majority of the qualified electors of the school district voting at an election upon the question of the issuance of such bonds.

(f) On or before the first day of the legislative session in 2017, and each year thereafter, the state board of education shall prepare and submit a report to the legislature that includes information on school district elections held on or after July 1, 2016, to approve the issuance of general obligation bonds and the amount of payments school districts were approved to receive from the school district capital improvements fund pursuant to subsection (b)(4)(C).
