

HOUSE BILL No. 2343

AN ACT concerning health and health care; relating to organ transplants; ensuring nondiscrimination in access to organ transplants.

*Be it enacted by the Legislature of the State of Kansas:*

Section 1. (a) The following findings and purpose shall apply to this section:

(1) A mental or physical disability does not diminish an individual's right to health care;

(2) the federal Americans with disabilities act prohibits discrimination against individuals with disabilities, yet many individuals with disabilities still experience discrimination in accessing critical health care services;

(3) in other states nationwide, individuals with mental and physical disabilities have historically been denied life-saving organ transplants based on assumptions that their lives are less worthy, that they are incapable of complying with post-transplantation medical requirements or that they lack adequate support systems to ensure compliance with post-transplantation medical requirements;

(4) although organ transplant centers must consider medical and psychosocial criteria when determining if a patient is suitable to receive an organ transplant, transplant centers that participate in medicare, the state program for medical assistance and other federally funded programs are required to use patient selection criteria that result in a fair and nondiscriminatory distribution of organs; and

(5) state residents in need of organ transplants are entitled to assurances that they will not encounter discrimination on the basis of a disability.

(b) A covered entity may not solely on the basis of an individual's disability:

(1) Consider a qualified individual ineligible to receive an anatomical gift or organ transplant;

(2) deny medical and other services related to organ transplantation, including evaluation, surgery, counseling, and post-transplantation treatment and services;

(3) refuse to refer the individual to a transplant center or a related specialist for the purpose of evaluation or receipt of an organ transplant;

(4) refuse to place a qualified individual on an organ transplant waiting list; or

(5) place a qualified individual at a lower-priority position on an organ transplant waiting list than the position at which the qualified individual would have been placed if not for the disability.

(c) (1) Subject to paragraph (2) of this subsection, a covered entity may take an individual's disability into account when making treatment or coverage recommendations or decisions, solely to the extent that the disability has been found by a physician, following an individualized evaluation of the individual, to be medically significant to the provision of the anatomical gift.

(2) If an individual has the necessary support system to assist the individual in complying with post-transplantation medical requirements, a covered entity may not consider the individual's inability to independently comply with the post-transplantation medical requirements to be medically significant for the purposes of paragraph (1) of this subsection.

(d) A covered entity shall make reasonable modifications in policies, practices or procedures, when the modifications are necessary to allow an individual with a disability access to services, including transplantation-related counseling, information, coverage or treatment, unless the covered entity can demonstrate that making the modifications would fundamentally alter the nature of the services.

(e) A covered entity shall take such steps as may be necessary to ensure that an individual with a disability is not denied services, including transplantation-related counseling, information, coverage or treatment, due to the absence of auxiliary aids and services, unless the covered entity can demonstrate that taking the steps would fundamentally alter the nature of the services being offered or would result in an undue burden.

(f) Nothing in this section shall be construed to require a covered entity to make a referral or recommendation for or perform a medically inappropriate organ transplant.

(g) (1) If a covered entity violates this section, the affected individual may bring an action in the appropriate district court for injunctive or other equitable relief.

(2) In an action brought under paragraph (1) of this subsection, the district court shall:

(A) Schedule a hearing as soon as possible; and
