(d) (1) The board shall require every licensee to submit with the renewal application evidence of satisfactory completion of a program of continuing education required by the board. The board by duly adopted rules and regulations shall establish the requirements for such program of continuing education as soon as possible after the effective date of this act.

(e) Upon fixing the biennial license renewal fee, the board shall immediately notify all licensees of the amount of the fee for the ensuing licensure period. Upon receipt of such fee and upon receipt of evidence that the licensee has satisfactorily completed a program of continuing education required by the board, the licensee shall be issued a renewal license authorizing the licensee to continue to practice in this state for a period of no more than two years.

(2) Any licensee whose license is required to be renewed for the next biennial period may obtain renewal, prior to February 1, by submitting to the board the required renewal application, payment of the biennial renewal fee and proof that such licensee has satisfactorily completed a program of continuing education required by the board. regulations by the board and proof that such licensee has satisfactorily completed a program of continuing education required by the board. The penalty fee in effect immediately prior to the effective date of this act shall continue in effect until rules and regulations establishing a penalty fee under this section become effective.

(g) Upon failure of any licensee to pay the applicable renewal fee or to present proof of satisfactory completion of the required program of continuing education by February 1 of the year following the December in which a renewal application is due, the board shall notify such licensee, in writing, by mailing notice to such licensee's last registered address. Failure to mail or receive such notice shall not affect the cancellation of the license of such licensee.

(h) The board may waive the payment of biennial fees and the continuing education requirements for the renewal of licenses without the payment of any fee for a person who has held a Kansas license to practice dentistry, dental therapy or dental hygiene if such licensee has retired from such practice or has become temporarily or permanently disabled and such licensee files with the board a certificate stating either of the following:

(1) A retiring licensee shall certify to the board that the licensee is not engaged, except as provided in K.S.A. 65-1466, and amendments thereto, in the provision of any dental service, the performance of any dental operation or procedure or the delivery of any dental therapy or dental hygiene service as defined by the statutes of the state of Kansas; or

(2) A disabled licensee shall certify to the board that such licensee is no longer engaged in the provision of dental services, the performance of any dental therapy or dental operation or the provision of any dental hygiene services as defined by the statutes of the state of Kansas by reason of any physical disability, whether permanent or temporary, and shall describe the nature of such disability.

(i) The waiver of fees under subsection (h) shall continue so long as the retirement or physical disability exists. Except as provided in K.S.A. 65-1466, and amendments thereto, in the event the licensee returns to the practice for which such person is licensed, the requirement for payment of fees and continuing education requirements shall be reimposed commencing with and continuing after the date the licensee returns to such active practice. Except as provided in K.S.A. 65-1466, and amendments thereto, the performance of any dental service, including consulting service, or the performance of any dental therapy or dental hygiene service, including consulting service, shall be deemed the resumption of such service, requiring payment of license fees.

(j) The Kansas dental board may adopt such rules and regulations requiring the examination and providing means for examination of those persons returning to active practice after a period of retirement or
disability as the board shall deem necessary and appropriate for the protection of the people of the state of Kansas except that for an applicant to practice dental therapy or dental hygiene who is returning to active practice after a period of retirement or disability, the board shall authorize as an alternative to the requirement for an examination that the applicant successfully complete a refresher course as defined by the board in an approved dental hygiene school or dental therapy program.

Sec. 17. On and after July 1, 2020, K.S.A. 2017 Supp. 65-1434 is hereby amended to read as follows: 65-1434. (a) The board, without examination, may issue a license as a dentist, dental therapist or dental hygienist to an applicant holding a license in another state upon compliance with the requirements of professional qualification and experience set forth in subsection (b). The board shall prepare and adopt a form of application to be submitted by an applicant for a license to be issued under this section. On the receipt of any such application, the board shall conduct such review, verification or other investigation of the applicant and the professional qualifications, background, experience and practice of the applicant as the board deems necessary to assure full compliance with the requirements of this section. Any license so issued may be revoked by the board upon evidence that an applicant has obtained a license under this section through misrepresentation or omission of a material fact in the application or other information submitted to the board.

(b) Each applicant for licensure under this section must evidence the qualifications and meet the following requirements:

(1) Each applicant for licensure as a dentist under this section must meet the requirements set forth in K.S.A. 65-1426, and amendments thereto. Each applicant for licensure as a dental therapist must meet all applicable requirements set forth in section 9, and amendments thereto. Each applicant for licensure as a dental hygienist must meet any applicable requirements set forth in K.S.A. 65-1455, and amendments thereto.

(2) Each applicant shall show evidence of having successfully completed both a national board examination or an equivalent examination accepted by the state in which the applicant has been previously licensed, and a clinical examination, administered by any state or clinical dental testing agency, of equivalent merit to the clinical examination accepted by the board at the time such applicant completed such examinations.

(3) Each applicant for licensure as a dentist under this section shall have held a license to practice dentistry in one or more other states of the United States for the five-year period immediately preceding the date of application and shall have engaged in the active practice of dentistry for at least five years prior to the date of application. Each applicant for licensure as a dental therapist under this section shall have held a license to practice dental therapy in another state of the United States for a three-
year period immediately preceding the date of application and shall have
engaged in the active practice of dental therapy for at least three years
prior to the date of application. Each applicant for licensure as a dental
hygienist under this section shall have held a license to practice dental
hygiene in another state of the United States for the three-year period
immediately preceding the date of application and shall have engaged in
the active practice of dental hygiene for at least three years prior to the
date of application. Successive and continuous periods of active practice in
other states will comply with the active practice requirements of this
paragraph (3). For the purpose of determining the period of practice,
periods of military service will be considered to the extent approved by the
Kansas dental board. Service as a full-time faculty member in a school of
dentistry will be considered the practice of dentistry to the extent service
involved full-time instruction in dentistry including clinical dentistry.
Service as a faculty member in a school of dental hygiene will be
considered the practice of dental hygiene to the extent such service
involved instruction in dental hygiene including clinical dental hygiene. To
be considered for the purposes of this statute, any such school of dentistry,
dental therapy or dental hygiene must be approved by the Kansas dental
board within the meaning of K.S.A. 65-1426, and amendments thereto.

(4) Each such applicant shall show evidence that the applicant has
fully complied with all continuing education requirements imposed by the
state or states in which the applicant has been licensed and has practiced
during the five-year applicable time period immediately preceding the
date of the application. In the event the state or states in which the
applicant has been licensed and practiced has no such requirement, the
applicant shall provide such information concerning continuing education
received by the applicant during the five-year applicable time period
preceding application as may be required by the board. All applicants must
have completed continuing education sufficient to comply with that
continuing education required of Kansas licensees during the twenty-four
24-month period prior to the date of the application for licensure unless the
Kansas dental board determines, for good cause shown, that the
requirement will work an undue hardship upon the applicant and the
requirement is not necessary for the protection of the people of Kansas
based upon the training and experience of the applicant.

(5) The applicant shall provide such other information concerning the
applicant and the dental education, qualification, experience and
professional conduct of the applicant as the board in its discretion deems
necessary to its determination to issue a license.

(6) Each applicant shall provide a certificate of the executive director
of the board or other agency governing licensure of dentists, dental
therapists or dental hygienists of the state in which the applicant has been
licensed and has practiced during the required period preceding the date of
the application. Such certificate shall state that: (A) The applicant is
licensed to practice dentistry, dental therapy or dental hygiene in the state;
(B) the license of the applicant has never been suspended or revoked; (C)
