AN ACT concerning electricity; relating to service rights of retail electric suppliers; relating to termination of a retail electric supplier’s service rights; amending K.S.A. 66-1,176 and repealing the existing section.

Be it enacted by the Legislature of the State of Kansas:

(a) (1) Whenever a city proposes to annex land that is located within the certified territory of a retail electric supplier, the city shall provide notice to the retail electric supplier in the manner prescribed by K.S.A. 12-520a, and amendments thereto. All rights of a retail electric supplier to provide electric service in an area annexed by a city shall terminate 180 days from the date of annexation, unless such electric supplier is then holding a valid franchise for service in the area granted by the annexing city. Such period of 180 days shall be extended to 210 days from the date of annexation if a franchise is granted to the retail electric supplier pursuant to referendum conducted according to applicable franchise laws of the state of Kansas within such period of 210 days no less than 30 days prior to the city making a selection pursuant to subsection (a)(2).

(2) Whenever the city annexes land that is located within the certified territory of a retail electric supplier, the city shall negotiate for the issuance of a franchise agreement pursuant to K.S.A. 12-2001, et seq., and amendments thereto, with a retail electric supplier holding a certificate within the annexed area. Nothing herein shall be construed to require a supplier holding both a certificate of convenience and a franchise for the area annexed to obtain a new franchise. The city shall have the final make the selection of which supplier receives a franchise to operate within the annexed area. When making such selection, the city shall consider certain factors including, but not limited to: (A) The public convenience and necessity; (B) rates of various suppliers; (C) (C) desires of the customer or customers to be served; (D) economic impact on the suppliers; (E) economic impact on the customers of the suppliers; (F) (F) the utility’s operational ability to serve the annexed area; (G) avoiding the wasteful duplication of facilities; (H) avoiding unnecessary encumbrance on the landscape; and (I) preventing the waste of materials and natural resources; (J) proposals from any retail electric supplier holding a
certificate in the annexed area; and (K) whether the selection is in the best interests of the public. Within 30 days after the final decision of the city, any supplier aggrieved thereby may file an appeal in the district court of the county in which the annexed area is located to determine the reasonableness of the final decision. In the event that an appeal of the decision is filed in the district court, the retail electric supplier providing service at the time of annexation shall continue to provide service until such time as the appeal has been concluded. In the event service rights are terminated pursuant to this section, the commission shall certify such annexed area as a single certified territory to the supplier holding a franchise for or then providing retail electric service in the city immediately prior to the annexation. When considering factors contained in subparagraphs (A) through (K) or any other factors, the city shall produce a record of the city's deliberations and findings upon each factor and the basis for the city's selection. Such record shall be available as a public record within 10 days after the city makes a selection.

(3) A retail electric supplier providing service at the time of annexation shall continue to provide service until the service rights of such retail electric supplier are terminated pursuant to subsection (a)(5).

(4) Within 30 days after the city has made a selection, the city shall cause its selection and a copy of the record produced by the city pursuant to subsection (a)(2) to be filed with the commission and shall provide notice to each retail electric supplier holding a certificate in the annexed area of such filing. Upon receipt of such notice, a retail electric supplier holding a certificate in the annexed area shall have 15 days to request that the commission review the city's selection. If a review is requested, the commission shall conduct a hearing in accordance with the Kansas administrative procedure act to review the city's selection to ensure that such selection: (A) Was properly evaluated based on the factors listed in subsection (a)(2); and (B) is not unjust, unreasonable, unreasonably inefficient or insufficient, unduly preferential or unjustly discriminatory and is in the best interests of the public. The commission shall not be limited to a review of the record produced by the city and may take additional evidence upon the factors listed in subsection (a)(2) and may consider additional factors as necessary. The commission shall have 60 days after a review is requested to issue an order approving or denying the city's selection. Such order shall become operative and effective upon service of the order.

(5) In the event the commission's order:

(A) Approves a city's selection to grant a franchise to a retail electric supplier that does not hold a certificate in the annexed area or to a supplier that holds a certificate in part of the annexed area, all rights to provide electric service in the annexed area of any retail electric supplier
that was not selected by the city shall terminate 180 days from the date the
order becomes operative and effective. When the service rights of such
retail electric supplier are terminated, the commission shall certify such
annexed area as a single certified territory to the new retail electric
supplier selected by the city. The 180-day termination period shall be
tolled upon the filing of an appeal pursuant to subsection (a)(6);

30 days after the commission has issued its order. In the event that an
appeal of the commission's order is filed, the retail electric supplier

originally certified supplier shall have the right to continue service to the
annexed area and charge its ordinary rates therefor until such supplier does
assume service to the annexed area. Such service shall be free of any
franchise fee or other compensation to the city or the electric supplier
holding the franchise. If the supplier holding a franchise has not assumed
service to the annexed area within 180 days following the applicable 180-
