If a petition is filed, the county election officer shall submit the question of whether adoption of the local option budget shall be authorized to the electors of the school district at an election called for the purpose or at the next general election, as is specified by the board of education of the school district.

CERTIFICATE

This is to certify that the above resolution was duly adopted by the board of education of unified school district No. ________, County, Kansas, on the ___ day of ________, ________.

Clerk of the board of education.

All of the blanks in the resolution shall be filled appropriately. If a sufficient petition is not filed, the board may adopt a local option budget. If a sufficient petition is filed, the board may notify the county election officer of the date of an election to be held to submit the question of whether adoption of a local option budget shall be authorized. Any such
election shall be noticed, called and held in the manner provided by K.S.A. 10-120, and amendments thereto. If the board fails to notify the county election officer within 30 days after a sufficient petition is filed, the resolution shall be deemed abandoned and no like resolution shall be adopted by the board within the nine months following publication of the resolution.

(d) Unless specifically stated otherwise in the resolution, the authority to adopt a local option budget shall be continuous and permanent. The board of any school district that is authorized to adopt a local option budget may choose not to adopt such a budget or may adopt a budget in an amount less than the amount authorized. If the board of any school district whose authority to adopt a local option budget is not continuous and permanent refrains from adopting a local option budget, the authority of such school district to adopt a local option budget shall not be extended by such nonadoption beyond the period specified in the resolution authorizing adoption of such budget.

(e) The board of any school district may initiate procedures to renew or increase the authority to adopt a local option budget at any time during a school year after the tax levied pursuant to K.S.A. 2017 Supp, 72-5147, and amendments thereto, is certified to the county clerk under any existing authorization.

(f) (1) Except as provided in paragraph (2), the board of any school district authorized to adopt a local option budget prior to July 1, 2017, under a resolution that authorized the adoption of such budget in accordance with the provisions of K.S.A. 2017 Supp, 72-6471, prior to its repeal by the resolution July 1, 2017, may continue to operate under such resolution for the period of time specified in the resolution if such resolution adopted a local option budget equal to or greater than the amount required in subsection (a), or may abandon the resolution and operate under the provisions of this section. Any such school district shall operate under the provisions of this section after the period of time specified in any previously adopted resolution has expired.

(2) Any resolution adopted prior to July 1, 2017, pursuant to K.S.A. 72-6433(c)(2), prior to its repeal, that authorized the adoption of a local option budget and that was not subsequently submitted to and approved by a majority of the qualified electors of the school district voting at an election held thereon shall expire on June 30, 2018, and shall have no force and effect during school year 2018-2019 or any subsequent school year.

(g) Any resolution adopted pursuant to this section may revoke or repeal any resolution previously adopted by the board. If the resolution does not revoke or repeal previously adopted resolutions, all resolutions that are in effect shall expire on the same date. The maximum amount of the local option budget of a school district under all resolutions in effect shall not exceed the state prescribed percentage in any school year.

(h) For school year 2019-2020 and each school year thereafter, the board of any school district that desires to increase its local option budget authority for the immediately succeeding school year shall submit written notice of such intent to the state board by April 1 of the current school year. Such notice shall include the local option budget authority, expressed as a percentage of the school district's total foundation aid, to be adopted for the immediately succeeding school year. The board of a school district shall not adopt a local option budget in excess of the authority stated in a notice submitted pursuant to this subsection.

(i) (1) There is hereby established in each school district that adopts a local option budget a supplemental general fund, which shall consist of all amounts deposited therein or credited thereto according to law.

(2) (A) Of the moneys deposited in or otherwise credited to the supplemental general fund of a school district pursuant to K.S.A. 2017 Supp. 72-5147, and amendments thereto, an amount that is proportional to that amount of such school district's total foundation aid attributable to the at-risk student weighting as compared to such district's total foundation aid shall be transferred to the at-risk education fund of such school district and shall be expended in accordance with K.S.A. 2017 Supp. 72-5133, and amendments thereto.

(B) Of the moneys deposited in or otherwise credited to the supplemental general fund of a school district pursuant to K.S.A. 2017 Supp.
72-5147, and amendments thereto, an amount that is proportional to that
amount of such school district’s total foundation aid attributable to the
bilingual weighting as compared to such district’s total foundation aid
shall be transferred to the bilingual education fund of such school district
and shall be expended in accordance with K.S.A. 2017 Supp. 72-3613, and amendments thereto.

(3) Subject to the limitations imposed under subsection (h)(3) paragraph (4), amounts in the supplemental general fund may be expended for any purpose for which expenditures from the general fund are authorized or may be transferred to any categorical fund of the school district. Amounts in the supplemental general fund attributable to any percentage over 25% of total foundation aid determined for the current school year may be transferred to the capital improvements fund of the school district and the capital outlay fund of the school district if such transfers are specified in the resolution.authorizing the adoption of a local option budget in excess of 25%.

(4) Amounts in the supplemental general fund may not be expended for the purpose of making payments under any lease-purchase agreement involving the acquisition of land or buildings that is entered into pursuant to the provisions of K.S.A. 2017 Supp. 72-1149, and amendments thereto.

(5) (A) Except as provided in subsection (h)(4)(B) subparagraph (B), any unexpended moneys remaining in the supplemental general fund of a school district at the conclusion of any school year in which a local option budget is adopted shall be maintained in such fund.

(B) If the school district received supplemental state aid in the school year, the state board shall determine the ratio of the amount of supplemental general state aid received to the amount of local option budget of the school district for the school year and multiply the total amount of the unexpended moneys remaining by such ratio. An amount equal to the amount of the product shall be transferred to the general fund of the school district or remitted to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto. Upon receipt of any such remittance, the state treasurer shall deposit the same in the state treasury to the credit of the state school district finance fund.

(i) Each year, the state board shall determine the statewide average percentage of local option budgets legally adopted by school districts for the preceding school year.

(j) The provisions of this section shall be subject to the provisions of K.S.A. 2017 Supp. 72-5144, and amendments thereto.

(k) As used in this section:

(1) “Authorized to adopt a local option budget” means that a school district has adopted a resolution pursuant to subsection (c).

(2) “State prescribed percentage” means 33% 30.5% of the total foundation aid of the school district in the current school year.

(3) For purposes of determining the school district’s local option budget under subsections (a), (b) and (c), “total foundation aid” means the same as such term is defined in K.S.A. 2017 Supp. 72-5132, and amendments thereto, except the state aid for special education and related services shall be divided by an amount equal to 85% of the BASE aid amount, and the resulting quotient shall be used in determining the school district’s total foundation aid.

Sec. 5. On and after July 1, 2018, K.S.A. 2017 Supp. 72-5145 is hereby amended to read as follows: 72-5145. (a) In each school year, each school district that has adopted a local option budget is eligible to receive supplemental state aid. Except as provided by K.S.A. 2017 Supp. 72-5146, and amendments thereto, supplemental state aid shall be determined by the state board as provided in subsection (b).

(b) The state board shall:

(1) (A) For school year 2017-2018, determine the amount of the assessed valuation per student in the preceding school year of each school district, and

(B) for school year 2018-2019 and each school year thereafter, determine the average assessed valuation per student of each school district by adding the assessed valuation per student for each of the three immediately preceding school years and dividing the resulting sum by three;

(2) rank the school districts from low to high on the basis of the
amounts of assessed valuation per student determined under subsection (b)(1);

(3) identify the amount of the assessed valuation per student located at the 81.2 percentile of the amounts ranked under subsection (b)(2);

(4) divide the assessed valuation per student of the school district as determined under subsection (b)(1) by the amount identified under subsection (b)(3); and

(5) (A) if the quotient obtained under subsection (b)(4) equals or exceeds one, the school district shall not receive supplemental state aid; or

(B) if the quotient obtained under subsection (b)(4) is less than one, subtract the quotient obtained under subsection (b)(4) from one, and multiply the difference by the amount of the local option budget of the school district for the immediately preceding school year. The resulting product is the amount of supplemental state aid the school district is to receive for the school year.

(c) Payments of supplemental state aid shall be distributed to school districts on the dates prescribed by the state board. The state board shall certify to the director of accounts and reports the amount due each school district, and the director of accounts and reports shall draw a warrant on the state treasurer payable to the treasurer of the school district. Upon receipt of the warrant, the treasurer of the school district shall credit the amount thereof to the supplemental general fund of the school district to be used for the purposes of such fund.

(d) For the purposes of determining the total amount of state moneys paid to school districts, all moneys appropriated as supplemental state aid shall be deemed to be state moneys for educational and support services for school districts.

Sec. 6. On and after July 1, 2018, K.S.A. 2017 Supp. 72-5148 is hereby amended to read as follows: 72-5148. (a) (1) The transportation weighting of each school district shall be determined by the state board as follows:

(1) Determine the total expenditures of the school district during the preceding school year from all funds for transporting students of public and nonpublic schools on regular school routes;

(2) determine the sum of: (A) The number of students who were included in the enrollment of the school district in the preceding school year who resided less than 21⁄2 miles by the usually traveled road from the school building such students attended and for whom transportation was made available by the school district; and (B) the number of nonresident students who were included in the enrollment of the school district for the preceding school year and for whom transportation was made available by the school district;

(3) determine the number of students who were included in the enrollment of the school district in the preceding school year who resided 21⁄2 miles or more by the usually traveled road from the school building such students attended and for whom transportation was made available by the school district;

(4) multiply the number of students determined under subsection (a)(3) by 2.8;

(5) divide the amount determined under subsection (a)(2) by the product obtained under subsection (a)(4);

(6) add one to the quotient obtained under subsection (a)(5);

(7) multiply the sum obtained under subsection (a)(6) by the amount determined under subsection (a)(3);

(8) divide the amount determined under subsection (a)(1) by the product obtained under subsection (a)(7). The resulting quotient is the per-student cost of transportation;

(9) on a density-cost graph, plot the per-student cost of transportation for each school district;

(10) construct a curve of best fit for the points so plotted;

(11) locate the index of density for the school district on the base line of the density-cost graph and from the point on the curve of best fit directly above this point of index of density follow a line parallel to the base line to the point of intersection with the vertical line, which point is the formula per-student cost of transportation of the school district;

(12) divide the formula per-student cost of transportation of the school district by the BASE aid, and...
(2) The per capita allowance shall be determined using the following chart:

(b) (1) For school years 2017-2018 through 2020-2021, the transpor-
tation weighting of the school district shall be either the product deter-
mimed under subsection 10.550 - 12.589 (a)(1)(E), or that portion of such school
district’s general state aid for school year 2016-2017 that was attributable
to the school district’s transportation weighting, whichever is greater.

(2) For school year 2021-2022, and each school year thereafter, the
transportation weighting of the school district shall be the product deter-

(3) In no event shall the transportation weighting of the school district
result in the portion of such school district’s state foundation aid attrib-
utable to the transportation weighting being in excess of 110% of such
school district’s total expenditures from all funds for transporting students
for the immediately preceding school year.

c) For the purpose of providing accurate and reliable data on student
transportation, the state board is authorized to adopt rules and regulations
prescribing procedures that school districts shall follow in reporting per-
tinent information, including uniform reporting of expenditures for trans-
portation.

d) As used in this section:

(1) “Curve of best fit” means the curve on a density-cost graph drawn
so the sum of the distances squared from such line to each of the points
plotted on the graph is the least possible.

(2) “Density-cost graph” means a drawing having: (A) A horizontal
or base line divided into equal intervals of density, beginning with zero
on the left, and (B) a scale for per student cost of transportation to be
shown on a line perpendicular to the base line at the left end thereof,
such scale to begin with zero dollars at the base line ascending by equal
per student cost intervals.

(3) Index of density means the number of students who are in-
duded in the enrollment of a school district in the current school year,
are residing the designated distance or more by the usually traveled road
from the school building they attend, and for whom transportation is
being made available on regular school routes by the school district di-
vided by the number of square miles of territory in the school district.
“Density figure” means the area of the school district in square miles
divided by the number of transported students.

(4) “Transported students” means the number of students who were
included in the enrollment of the school district in the preceding year who
resided 2 1/2 miles or more by the usually traveled road from the school
building such students attended and for whom transportation was made
available.

Sec. 7. On and after July 1, 2018, K.S.A. 2017 Supp. 72-5149 is hereby
amended to read as follows: 72-5149. (a) The low enrollment weighting
of each school district shall be determined by the state board as follows:

(1) For school districts with an enrollment of fewer than 100 students,
multiply the enrollment of the school district by 1.014331. The resulting
product is the low enrollment weighting of the school district;

(2) for school districts with an enrollment of at least 100 students,

(A) Subtract 100 from the enrollment of the school district;

(B) multiply the difference obtained under subsection (a)(2)(A) by
9.655;

(C) subtract the product obtained under subsection (a)(2)(B) from
7,337;

(D) divide the difference obtained under subsection (a)(2)(C) by
3,642.4;

(E) subtract one from the quotient obtained under subsection
(a)(2)(D); and

(F) multiply the difference obtained under subsection (a)(2)(E) by
the enrollment of the school district. The resulting product is the low
enrollment weighting of the school district;

(3) for school districts with an enrollment of at least 300 students,

(A) subtract 100 from the enrollment of the school district;

(B) multiply the difference obtained under subsection (a)(2)(A) by
9.655;

(C) subtract the product obtained under subsection (a)(2)(B) from
7,337;

(D) divide the difference obtained under subsection (a)(2)(C) by
3,642.4;

(E) subtract one from the quotient obtained under subsection
(a)(2)(D); and

(F) multiply the difference obtained under subsection (a)(2)(E) by
the enrollment of the school district. The resulting product is the low
enrollment weighting of the school district;
(A) Subtract 300 from the enrollment of the school district;
(B) multiply the difference obtained under subsection (a)(3)(A) by 1.2375;
(C) subtract the product obtained under subsection (a)(3)(B) from 5,406;
(D) divide the difference obtained under subsection (a)(3)(C) by 3,642.4;
(E) subtract one from the quotient obtained under subsection (a)(3)(D);
(F) multiply the difference obtained under subsection (a)(3)(E) by the enrollment of the school district. The resulting product is the low enrollment weighting of the school district.

(b) For school districts with an enrollment of at least 1,622 students, multiply the enrollment of the school district by 0.03504. The resulting product is the high enrollment weighting of the school district.

Sec. 8. K.S.A. 2017 Supp. 72-5150 is hereby amended to read as follows: 72-5150. The bilingual weighting of each school district shall be determined by the state board as follows:
(a) Determine the full-time equivalent enrollment in approved programs of bilingual education during the preceding school year and multiply such enrollment by 0.395;
(b) determine the number of students enrolled in approved programs of bilingual education during the preceding school year and multiply such enrollment by 0.185; and
(c) the bilingual weighting shall be either the amount determined under subsection (a) or (b), whichever is greater.

Sec. 9. On and after July 1, 2018, K.S.A. 2017 Supp. 72-5151 is hereby amended to read as follows: 72-5151. (a) The at-risk student weighting of each school district shall be determined by the state board as follows:
(1) Determine the number of at-risk students included in the enrollment of the school district; and
(2) for a school district with an enrollment that consists of 10% or more at-risk students, multiply the number determined under subsection (a)(1) by 0.484. The resulting sum is the at-risk student weighting of the school district; or
(3) for a school district with an enrollment that consists of less than 10% at-risk students, multiply the number of students equal to 10% of such school district’s enrollment by 0.484. The resulting sum is the at-risk student weighting of the school district whose at-risk student weighting is determined pursuant to this paragraph shall submit a report to the state board in such form and manner as required by the state board that identifies those students enrolled in such school district who are receiving at-risk program services and the criteria each such student satisfies in order to receive at-risk program services. The state board shall adopt rules and regulations that establish the criteria for eligibility for at-risk program services. The provisions of this paragraph shall only apply to those school districts that offer instruction in kindergarten and grades one through twelve.
(b) Except as provided in subsection (b)(4), the high-density at-risk student weighting of each school district shall be determined by the state board as follows:
(1) (A) If the enrollment of the school district is at least 35% at-risk students, but less than 50% at-risk students:
(i) Subtract 35% from the percentage of at-risk students included in the enrollment of the school district;
(ii) multiply the difference determined under subsection (b)(1)(A)(i) by 0.7; and
(iii) multiply the product determined under subsection (b)(1)(A)(ii) by the number of at-risk students included in the enrollment of the school district; or
(B) if the enrollment of the school district is 50% or more at-risk students, multiply the number of at-risk students included in the enrollment of the school district by 0.105;
(2) (A) if the enrollment of a school in the school district is at least 35% at-risk students, but less than 10% at-risk students, multiply the number of students equal to 10% of such school district’s enrollment by 0.484. The resulting sum is the at-risk student weighting of the school district whose at-risk student weighting is determined pursuant to this paragraph shall submit a report to the state board in such form and manner as required by the state board that identifies those students enrolled in such school district who are receiving at-risk program services and the criteria each such student satisfies in order to receive at-risk program services. The state board shall adopt rules and regulations that establish the criteria for eligibility for at-risk program services. The provisions of this paragraph shall only apply to those school districts that offer instruction in kindergarten and grades one through twelve.
(ii) multiply the difference determined under subsection (b)(2)(A)(i) by 0.7; and
(iii) multiply the product determined under subsection (b)(2)(A)(ii) by the number of at-risk students included in the enrollment of such school; or
(B) if the enrollment of a school in the school district is 50% or more at-risk students, multiply the number of at-risk students included in the enrollment of such school by 0.105; and
(C) add the products determined under subsections (b)(2)(A)(iii) and (b)(2)(B) for each such school in the school district, respectively.

(3) The high-density at-risk weighting of the school district shall be the greater of the product determined under subsection (b)(1) or the sum determined under subsection (b)(2)(C).

(4) Commencing in school year 2018-2019, school districts that qualify to receive the high-density at-risk weighting pursuant to this section shall spend any money attributable to the school district’s high-density at-risk weighting on the at-risk best practices developed by the state board pursuant to K.S.A. 2017 Supp. 72-5153(d), and amendments thereto. If a school district that qualifies for the high-density at-risk weighting does not spend such money on such best practices, the state board shall notify the school district that it shall either spend such money on such best practices or shall show improvement within five years of notification. Improvement shall include, but not be limited to, the following: (A) The percentage of students at grade level on state math and English language arts assessments; (B) the percentage of students that are college and career ready on state math and English language arts assessments; (C) the average composite ACT score; or (D) the four-year graduation rate. If a school district does not spend such money on such best practices and does not show improvement within five years, the school district shall not qualify to receive the high-density at-risk weighting in the succeeding school year.

(5) The provisions of this subsection shall expire on July 1, 2020.

Sec. 10. K.S.A. 2017 Supp. 72-5155 is hereby amended to read as follows:

72-5155. (a) The career technical education weighting of each school district shall be determined by the state board by multiplying the full-time equivalent enrollment in approved career technical education programs during the preceding school year by 0.5. The resulting product is the career technical education weighting of the school district.

(b) The provisions of this section shall expire on July 1, 2019.

Sec. 11. On and after July 1, 2018, K.S.A. 2017 Supp. 72-5170 is hereby amended to read as follows:

72-5170. (a) In order to accomplish the mission for Kansas education, the state board shall design and adopt a school district accreditation system based upon improvement in performance that equals or exceeds the educational goal set forth in K.S.A. 2017 Supp. 72-3218(c), and amendments thereto, and is measurable. The state board shall hold all school districts accountable to the Kansans can outcomes, or any successor outcomes established by the state board, through the Kansas education systems accreditation rules and regulations, or any successor accreditation system adopted by the state board. The state board shall establish rigorous accountability measures in the areas of social emotional learning, kindergarten readiness, individual plans of study, graduation and postsecondary success. The state board also shall ensure that all school districts and the public schools operated by such districts have programs and initiatives in place for providing those educational capacities set forth in K.S.A. 2017 Supp. 72-3218(c), and amendments thereto. On or before January 15, 2018, and each January 15 thereafter, the state board shall prepare and submit a report on the school district accreditation system to the governor and the legislature.

School site councils shall be responsible for providing advice and counsel in evaluating state, school district, and school site performance goals and objectives and in determining the methods that should be employed at the school site to meet these goals and objectives. Site councils may make recommendations and proposals to the school board regarding budgetary items and school district matters, including, but not limited to, identifying and implementing the best practices for developing efficient and effective administrative and management functions. Site councils also may help school boards analyze the unique environment of schools, enhance the efficiency and maximize limited resources, including outsourcing arrangements and cooperative opportunities as a means to address limited budgets.

(b) (1) Commencing in school year 2017-2018, the state board of education shall not approve any application submitted during the current school year if such approval would result in the aggregate amount of all general obligation bonds approved by the state board for such school year exceeding the aggregate principal amount of all general obligation bonds retired in the immediately preceding school year adjusted for inflation pursuant to paragraph (4). For any application submitted during the current school year in excess of $175,000,000, the state board shall apply only an amount of $175,000,000 of such application when determining whether the aggregate principal amount of all general obligation bonds retired in the immediately preceding school year has been exceeded. (3) The provisions of subsection (b)(1) shall not apply to school districts that have not issued any general obligation bonds in the 25 years prior to the current school year.

(4) *The state board shall adjust the aggregate principal amount of all general obligation bonds retired in the immediately preceding school year by adding an amount equal to the five-year compounded percentage increase in the producer price index industry data for new school building construction as published by the bureau of labor statistics of the United States department of labor for the five immediately preceding school years.

(c) After reviewing the application and examining the supportive evidence, the state board of education shall issue an order either granting or denying the application. If the application is approved, the applicant board of education shall request the county election officer to hold an election to vote upon the question of issuing the increased amount of bonds in the manner provided by law.

(d) Any application that is denied pursuant to subsection (b) may be tentatively approved by the state board of education for the immediately succeeding school year. The amount of general obligation bonds approved in any such application shall be counted first towards the aggregate amount of all general obligation bonds approved by the state board for such school year.
