HB 2067, as amended, would amend a provision in the Uniform Insurance Agents Licensing Act concerning application requirements for resident agent licensure to authorize the fingerprinting of resident insurance agent applicants for the purposes of obtaining a state and national criminal history record check.

Under the bill, the Insurance Commissioner would be permitted to:

- Require an applicant to be fingerprinted and submit to a state and national criminal history record check. The fingerprints shall be used to identify the applicant and to determine whether the applicant has a record of criminal arrests and convictions in Kansas or in other jurisdictions;
  - The Commissioner is authorized to submit the applicant’s fingerprints to the Kansas Bureau of Investigation (KBI) and the Federal Bureau of Investigation for the respective criminal history record checks. As part of this procedure, local and state law enforcement officers and agencies would be required to assist the Commissioner in taking and processing an applicant’s fingerprints and release all records of an applicant’s arrests and convictions to the Commissioner; and

*Supplemental notes are prepared by the Legislative Research Department and do not express legislative intent. The supplemental note and fiscal note for this bill may be accessed on the Internet at http://www.kslegislature.org
• Conduct, or have a third party conduct, a background check on the applicant.

The bill would further provide that whenever the Commissioner requires fingerprinting, a background check, or both, any of the associated costs for this process must be paid by the applicant. The bill would also state the Commissioner is permitted to only use the information obtained from a background check, fingerprinting, and the applicant's criminal history for the purposes of verifying the identification of any applicant and in the official determination of the fitness of the applicant to be issued a license as an insurance agent.

Under current law, the Insurance Commissioner is permitted to determine if an applicant has committed delinquent acts. Additionally, the law allows any applicant whose application is denied the opportunity for a hearing in accordance with the provisions of the Kansas Administrative Procedure Act.

Background

The bill was introduced by the House Committee on Insurance at the request of the Kansas Insurance Department (Department). In the House Committee hearing, the Deputy Insurance Commissioner (conferee) stated the bill would give the Department additional resources to make certain newly licensed insurance agents are properly vetted. The conferee indicated current law only permits a criminal background check (e.g. access to arrest records and convictions in Kansas). Information later provided by Department officials to the Committee indicated 27 states and the District of Columbia have similar fingerprinting requirements in law. A representative of the Kansas Association of Insurance Agents noted the fingerprint provisions in the bill are permissive and if the Commissioner chooses to require fingerprinting, it will be accessible and affordable. The representative also indicated the bill is a positive measure in sustaining a
commitment to the values of honesty and integrity for professional agents and brokers and could prevent bad actors from obtaining an insurance license.

The House Committee modified the language authorizing the fingerprinting of agents for the purposes of conducting a national criminal history record check to include similar language permitting state background checks. The amendment was requested by the Kansas Insurance Department.

According to the fiscal note prepared by the Division of the Budget on the bill, as introduced, the KBI states the cost to process the fingerprints and return the results to the Department would be covered by the record check fee paid by the applicant. The Department estimates 750 applications for insurance agent licenses would be submitted each year, and the KBI estimates a record check fee of $47 would be charged to the applicant. With enactment of the bill, additional revenues to the Record Check Fee Fund of the KBI totaling $35,250 would occur each year along with additional corresponding expenditures. Any fiscal effect associated with the bill is not reflected in The FY 2018 Governor’s Budget Report.
