Background

HB 2332 was introduced during the 2017 Legislative Session by the House Committee on Government, Technology and Security. The bill, as introduced, related to divulging contents of an electronic communication or storage in a legal proceeding. A hearing was held on the bill in March 2017, but no further action was taken by the Committee.

On February 14, 2018, the House Committee removed the original contents of HB 2332 and inserted language proposed by the Office of Information Technology Services (OITS) related to ITEC membership. A representative from OITS stated the changes to ITEC were being requested to increase its attendance and effectiveness.

No fiscal note for the substitute bill was available when the House Committee recommended it favorably for passage.
