

2017 Kansas Statutes

68-402f. Fees charged counties by secretary of transportation on certain federal road and bridge projects. Whenever any federal act or the regulation by any federal agency shall require that the secretary of transportation shall perform engineering services in connection with a federal aid project pertaining to the construction or reconstruction of any county road or bridge, the secretary shall not charge the county a fee for such engineering services which exceeds an amount equal to 10% of the county's share of the construction cost of such project.

History: L. 2001, ch. 117, § 2; July 1.
