

Dear Legislators,  
My daughter, Addie, is 13 years old. She has ADHD, autism, OCD, SPD & Tourette's Syndrome. I have heard from other parents who live in legal states that low THC CBD oil can help reduce tics & other negative behaviors that can occur with her anxiety. Claire & Lola's Law (HB 2244) would give me a chance to try this oil

to help better her quality of life. It's very hard as a parent to watch your child struggle. I just want to give her a chance to not have to struggle as much daily. Thank you very much for your consideration.

Sincerely,

Carla Nida
