Director Fax: (316) 775-3891 Andover **USD 385** Senate Bill 284 Augusta To: Senate Education Committee USD 402 Senate Education Committee Chair and members of the Committee, thank you for the Bluestem hearing on SB284. **USD 205** This is a simple issue in my opinion. Unified School Districts (USDs) and Inter-locals frequently transport students with a legitimate disability. USDs and Inter-locals can apply Circle for a disability "sticker" and register the vehicle with the Department of Revenue. This is **USD 375** fine until the USD or Inter-local needs to use a different vehicle for this usually short-term transportation need. Douglass We have opportunities to transport students to job sites, educational settings outside of the **USD 396** school building and general errands. Students with disabilities come in all sizes and needs. Visually impaired and physically impaired students are transported to places off the school El Dorado campus. Having vehicles with parking privileges assist staff in getting the student to the assignment and an opportunity for real live "teaching moments." USD 490 USDs and Interlocals will not abuse this option of using a disability placard on a school Flinthills vehicle. If an employee uses the placard inappropriately or against the statute, schools USD 492 would expect consequences like anyone else. Thank you for opportunity to share this issue with the Senate Education Committee. Remington **USD 206** Sincerely, Rose Hill USD 394

Bruce Givens Assistant Director of Special Education
