Working for Trinity Nursing has change my family's life style and we are able to afford the things we need to survive. When I worked for a facility directly I wasn't able to make enough to even pay for my gas let alone my essential bills like electronic,gas, etc.

Working for Trinity Nursing has giving me a much better look on the nursing field!
Every day when I go to work I feel so sorry for the patients that are not getting the care they need because every facility is understaffed because they cannot keep their own employees because the pay rate is so low. These people pay thousands of dollars a month to get good care and are told they're going to get good care and they do not get it. If it was not for these agencies coming in and filling up the staffing shortages these patients would be totally neglected!!!!
Why would someone want to work for 11.00-13.00 an hour taking caring of a human being with so much stress and physical labor when they could go and flip a hamburger for 14.00 an hour and up! My daughter is a senior in high school and works for a local restaurant and makes 14.00 an hour ! Most Nurse aids don't even make that working for a facility directly. Very sad!!!
