

HB2706  
03/03/22  
Nick Reinecker  
Opponent

House Federal and State Affairs  
Rep. John Barker Chair.

Thank you, Mr. Chairman and members of the committee for entertaining this cannabis bill. The way cannabis has been used as a political weapon by all levels and branches of government is tragic. I further believe the blame for complications during state sovereign policy changes regarding the status of cannabis as a state-controlled substance rests squarely on the shoulders of the Federal government as it pertains to the original repugnant classification of cannabis as a schedule 1 controlled substance and the continued pseudo-prohibition that presents itself in the form of this qualitative and quantitated bill

Notwithstanding current statutory definitions, cannabis in any form should not be a state-controlled substance and when it comes to the goals of HB2706, I would be a proponent if my natural right to grow, possess and use cannabis (in the defined form without a license when not engaged in commerce) was defended just like a licensed producer and/or processor's statutory right.

Finally, I would like to bring to the attention of this body the harassment and hurtful comments by a certain lobbyist under this dome. I have been subjected to verbal abuse, name-calling, harassing texts and even attempts to strongarm me when it comes to my participation in the committee process as outlined in the 'Legislative Procedure In Kansas' by KLRD 2006; page 18, #9 and in the public forum theatre. I don't know what it is like to be "wined and dined" by a lobbyist but I am not a fan of being negatively lobbied to. Thank You and I will take question if needed, at the appropriate time.

9. Committees. The general public has access to the legislative process through its elected senators and representatives. It should be understood, though, that the Legislature's committee system provides a very important forum for communication of citizen views directly into the legislative process

Thank you  
Nick Reinecker
