HB2803

Proponent

Written Only

Chairman Carpenter and Members of the House Federal & State Affairs Committee,

I am submitting my testimony in support of HB2803. I strongly support the state of Kansas having the authority to push back against unlawful and/or unconstitutional federal gun acts. The state of Kansas should not be required to assist the federal government to enforce unconstitutional or unlawful acts against rightful gun owners. The US Constitution clearly states in the 2<sup>nd</sup> Amendment the right for gun ownership. One area I would suggest the committee pay close attention to is any language that is subject to opinion that deems a person a threat. Make sure there are specific in writing parameters that are clearly spelled out. I am not a lawyer but take a close look at the noted Chapter 21 articles 57, 58, and 63 of the Kansas Statutes Annotated. With the state of the country, don't leave anything to chance. Take this opportunity to strengthen 2A gun ownership in the state of Kansas and push back on unlawful acts of the federal government. Again, I am voicing my support for bill HB2803.

Respectfully,

Brett Anderson
