

Senate Public Health & Welfare Committee

Feb 14, 2023

My name is Robert Hoogland and I live in British Columbia, Canada. My daughter is a victim of state sponsored child abuse after the government of BC ignored my legal challenge to preserve her natural and healthy body and allowed her to take "cross sex" hormones. As a result of the very high political nature of my case in Canada I must go by the name "CD". Currently, I am out on bail from a prison sentence because I have exposed the absolute abuse that these medical interventions are doing to our children. These insane medical procedures include sterilizing children, causing heart failures, causing osteoporosis, thinning of the hair, generation of facial hair, and lowered voices . . . to name a few. And these reactions to "cross sex" hormones are permanent. These procedures cannot be reversed.

If I can be of any service to the State of Kansas in this matter . . . please let me know.

Sincerely, CD (Robert Hoogland)
