

Committee Name: Senate Committee on Public Health and Welfare

Bill number: SB 391

Proponent Written Only Testimony

Date: 2/13/2024

Dear Honorable Chairwoman Senator Beverly Gossage and Members of the Public Health and Welfare Committee,

I strongly urge your support to SB 391 : Enacting the constitutional right to health freedom act to regulate the activities of the secretary of health and environment related to public health functions; repealing statutes relating to the secretary's authority to quarantine individuals and impose associated penalties.

Special interest groups are working through the establishment to kill this bill, which should inform each of you that the establishment does NOT support individual citizen health freedom.

Patient care and health decisions are between the patient and their doctor. If the state intervenes in those rights and enables the medical then the medical institutions to interfere, then trust in medical institutions will diminish. I for one will be less likely to seek out institutional doctor care. Black market medicine/health treatment cannot be far behind.

Please protect us from an out-of-control medical/government administration!

I would appreciate your vote for SB 391.

Sincerely,

John Ims

Lawrence, Upper Chamber: District 2
