The amount of such state aid shall be computed by the state board as provided in this section. The state board shall:

1. Determine the total amount of general fund and local option operating budgets of all school districts;
2. Subtract from the amount determined in paragraph (1) the total amount attributable to assignment of transportation weighting, program weighting, special education weighting and at-risk pupil weighting to enrollment of all school districts;
3. Divide the remainder obtained in paragraph (2) by the total number of full-time equivalent pupils enrolled in all school districts on September 20;
4. Determine the total full-time equivalent enrollment of exceptional children receiving special education and related services provided by all school districts;
5. Multiply the amount of the quotient obtained in paragraph (3) by the full-time equivalent enrollment determined in paragraph (4);
6. Determine the amount of federal funds received by all school districts for the provision of special education and related services;
7. Determine the amount of revenue received by all school districts rendered under contracts with the state institutions for the provisions of special education and related services by the state institution;
8. Add the amounts determined under paragraphs (6) and (7) to the amount of the product obtained under paragraph (5);
9. Determine the total amount of expenditures of all school districts for the provision of special education and related services;
(10) subtract the amount of the sum obtained under paragraph (8) from the amount determined under paragraph (9); and

(11) multiply the remainder obtained under paragraph (10) by 92%.

The computed amount is the amount of state aid for the provision of special education and related services aid a school district is entitled to receive for the ensuing school year.

(b) Each school district shall be entitled to receive:

(2) reimbursement in an amount equal to 80% of the actual travel expenses incurred for providing transportation for exceptional children to special education or related services; such reimbursement shall not be paid if such child has been counted in determining the transportation weighting of the district under the provisions of the school district finance and quality performance act;

(3) reimbursement in an amount equal to 80% of the actual expenses incurred for the maintenance of an exceptional child at some place other than the residence of such child for the purpose of providing special education or related services; such reimbursement shall not exceed $600 per exceptional child per school year; and

(4) (A) except for those school districts entitled to receive reimbursement under subsection (c) or (d), after subtracting the amounts of reimbursement under paragraphs (1), (2) and (3) of this subsection (a) from the total amount appropriated for special education and related services under this act, an amount which bears the same proportion to the remaining amount appropriated as the number of full-time equivalent special teachers who are qualified to provide special education or related services to exceptional children and are employed by the school district for approved special education or related services bears to the total number of such qualified full-time equivalent special teachers employed by all school districts for approved special education or related services.

(B) Each special teacher who is qualified to assist in the provision of special education or related services to exceptional children shall be counted as \( \frac{2}{3} \) full-time equivalent special teacher who is qualified to provide special education or related services to exceptional children.

exceptional children, who assists in providing special education and related services to exceptional children at either the state school for the blind or the state school for the deaf and whose services are paid for by a school district pursuant to K.S.A. 76-1006 or 76-1102, and amendments thereto, shall be considered a special teacher of such school district.

(c) Each school district which has paid amounts for the provision of special education and related services under an interlocal agreement shall be entitled to receive reimbursement under subsection (b)(4). The amount of such reimbursement for the district shall be the amount which bears the same relation to the aggregate amount available for reimbursement for the provision of special education and related services under the interlocal agreement, as the amount paid by such district in the current school year for provision of such special education and related services bears to the aggregate of all amounts paid by all school districts in the current school year who have entered into such interlocal agreement for provision of such special education and related services.

(d) Each contracting school district which has paid amounts for the provision of special education and related services as a member of a cooperative shall be entitled to receive reimbursement under subsection (b)(4). The amount of such reimbursement for the district shall be the amount which bears the same relation to the aggregate amount available for reimbursement for the provision of special education and related services by the cooperative, as the amount paid by such district in the current school year for provision of such special education and related services bears to the aggregate of all amounts paid by all contracting school districts in the current school year by such cooperative for provision of such special education and related services.

(e) No time spent by a special teacher in connection with duties performed under a contract entered into by the Kansas juvenile correctional complex, the Atchison juvenile correctional facility, the Larned juvenile correctional facility, or the Topeka juvenile correctional facility and a school district for the provision of special education services by such state institution shall be counted in making computations under this section.

(l) For the purposes of this section, the term "local operating budget" means "local option budget" as that term was used prior to the amendment of this section by this act.

(m) The provisions of this section shall be subject to the provisions of K.S.A. 2012 Supp. 72-6433d, and amendments thereto.

Sec. 6. K.S.A. 2012 Supp. 72-6433d is hereby amended to read as follows: 72-6433d. (a) (1) The provisions of this subsection shall apply in any school year in which the amount of base state aid per pupil is $4,433 or less.

(2) The board of any school district may adopt a local option operating budget which does not exceed the local option operating budget calculated as if the base state aid per pupil was $4,433 $4,926, or which does not exceed the local option operating budget as calculated pursuant to K.S.A. 72-6433, and amendments thereto, whichever is greater.

(b) The board of education of any school district may adopt a local option operating budget which does not exceed the local option operating budget calculated as if the district received state aid for special education and related services equal to the amount of state aid for special education and related services received in school year 2008-2009, or which does not exceed the local option operating budget as calculated pursuant to K.S.A. 72-6433, and amendments thereto, whichever is greater.

(c) The board of education of any school district may exercise the authority granted under subsection (a) or (b) or both subsections (a) and (b).

(d) To the extent that the provisions of K.S.A. 72-6433, and amendments thereto, conflict with this section, this section shall control.

(e) The provisions of this section shall expire on June 30, 2014.

Sec. 7. K.S.A. 2012 Supp. 72-6434 is hereby amended to read as follows: 72-6434. (a) In each school year, each district that has adopted a local option operating budget is eligible for entitlement to an amount of supplemental general state aid. Except as provided by K.S.A. 2012 Supp. 72-6434b, and amendments thereto, entitlement of a district to supplemental general state aid shall be determined by the state board as provided in this subsection. The state board shall:

(1) Determine the amount of the assessed valuation per pupil in the preceding school year of each district in the state;

(2) rank the districts from low to high on the basis of the amounts of assessed valuation per pupil determined under (1);

(3) identify the amount of the assessed valuation per pupil located at the 81.2 percentile of the amounts ranked under (2);

(4) divide the assessed valuation per pupil of the district in the preceding school year by the amount identified under (3);
subtract the ratio obtained under (4) from 1.0. If the resulting ratio equals or exceeds 1.0, the eligibility of the district for entitlement to supplemental general state aid shall lapse. If the resulting ratio is less than 1.0, the district is entitled to receive supplemental general state aid in an amount which shall be determined by the state board by multiplying the amount of the local operating budget of the district by such ratio. The product is the amount of supplemental general state aid the district is entitled to receive for the school year.

(b) If the amount of appropriations for supplemental general state aid is less than the amount each district is entitled to receive for the school year, the state board shall prorate the amount appropriated among the districts in proportion to the amount each district is entitled to receive.

c) The state board shall prescribe the dates upon which the distribution of payments of supplemental general state aid to school districts shall be due. Payments of supplemental general state aid shall be distributed to districts on the dates prescribed by the state board. The state board shall certify to the director of accounts and reports the amount due each district, and the director of accounts and reports shall draw a warrant on the state treasurer payable to the treasurer of the district. Upon receipt of the warrant, the treasurer of the district shall credit the amount thereof to the supplemental general fund of the district to be used for the purposes of such fund.

d) If any amount of supplemental general state aid that is due to be paid during the month of June of a school year pursuant to the other provisions of this section is not paid on or before June 30 of such school year, then such payment shall be paid on or after the ensuing July 1, as soon as moneys are available therefor. Any payment of supplemental general state aid that is due to be paid during the month of June of a school year and that is paid to school districts on or after the ensuing July 1 shall be recorded and accounted for by school districts as a receipt for the school year ending on the preceding June 30.

e) (1) Except as provided by paragraph (2), moneys received as supplemental general state aid shall be used to meet the requirements under the school performance accreditation system adopted by the state board, to provide programs and services required by law and to improve student performance.

(2) Amounts of supplemental general state aid attributable to any percentage over 25% of state financial aid determined for the current school year may be transferred to the capital improvements fund of the district and the capital outlay fund of the district if such transfers are specified in the resolution authorizing the adoption of a local operating budget in excess of 25%.

(f) For the purposes of determining the total amount of state moneys
paid to school districts, all moneys appropriated as supplemental general state aid shall be deemed to be state moneys for educational and support services for school districts.

Sec. 8. K.S.A. 2012 Supp. 72-6435 is hereby amended to read as follows: 72-6435. (a) In each school year, the board of every district that has adopted a local option budget may shall levy an ad valorem tax on the taxable tangible property of the district for the purpose of: (1) Financing that portion of the district's local option operating budget which is not financed from any other source provided by law; (2) paying a portion of the principal and interest on bonds issued by cities under authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the district; and (3) funding transfers to the capital improvement fund of the district and the capital outlay fund of the district if such transfers are specified in the resolution authorizing the adoption of a local option operating budget in excess of 25% of state financial aid determined for the current school year.

(b) The proceeds from the tax levied by a district under authority of this section, except the proceeds of such tax levied for the purpose of paying a portion of the principal and interest on bonds issued by cities under authority of K.S.A. 12-1774, and amendments thereto, for the financing of redevelopment projects upon property located within the district, shall be deposited in the supplemental general fund of the district.

(c) No district shall proceed under K.S.A. 79-1964, 79-1964a or 79-1964b, and amendments to such sections.

Sec. 9. K.S.A. 2012 Supp. 72-6441 is hereby amended to read as follows: 72-6441. (a) (1) The board of any district to which the provisions of this subsection apply may levy an ad valorem tax on the taxable tangible property of the district each year for a period of time not to exceed two years in an amount not to exceed the amount authorized by the state court of tax appeals under this subsection for the purpose of financing the costs incurred by the state that are directly attributable to assignment of ancillary school facilities weighting to enrollment of the district. The state court of tax appeals may authorize the district to make a levy which will produce an amount that is not greater than the difference between the amount of costs directly attributable to commencing operation of one or more new school facilities and the amount that is financed from any other source provided by law for such purpose, including any amount attributable to assignment of school facilities weighting to enrollment of the district for each school year in which the district is eligible for such weighting. If the district is not eligible, or will be ineligible, for school facilities weighting in any one or more years during the two-year period for which the district is authorized to levy a tax under this subsection, the state court of tax appeals may authorize the district to make a levy, in such
year or years of ineligibility, which will produce an amount that is not
greater than the actual amount of costs attributable to commencing
operation of the facility or facilities.
(2) The state court of tax appeals shall certify to the state board of
education the amount authorized to be produced by the levy of a tax under
subsection (a).
(3) The state court of tax appeals may adopt rules and regulations
necessary to effectuate the provisions of this subsection, including rules
and regulations relating to the evidence required in support of a district's
claim that the costs attributable to commencing operation of one or more
new school facilities are in excess of the amount that is financed from any
other source provided by law for such purpose.
(4) The provisions of this subsection apply to any district that: (A)
Commenced operation of one or more new school facilities in the school
year preceding the current school year or has commenced or will
commence operation of one or more new school facilities in the current
school year or any or all of the foregoing; (B) is authorized to adopt and
has adopted a local-option operating budget which is at least equal to that
amount required to qualify for school facilities weighting under K.S.A.
2012 Supp. 72-6415b, and amendments thereto; and (C) is experiencing
extraordinary enrollment growth as determined by the state board of
education.
(b) The board of any district that has levied an ad valorem tax on the
taxable tangible property of the district each year for a period of two years
under authority of subsection (a) may continue to levy such tax under
authority of this subsection each year for an additional period of time not
to exceed three years in an amount not to exceed the amount computed by
the state board of education as provided in this subsection if the board of
the district determines that the costs attributable to commencing operation
of one or more new school facilities are significantly greater than the costs
attributable to the operation of other school facilities in the district. The tax
authorized under this subsection may be levied at a rate which will
produce an amount that is not greater than the amount computed by the
state board of education as provided in this subsection. In computing such
amount, the state board shall: (1) Determine the amount produced by the
tax levied by the district under authority of subsection (a) in the second
year for which such tax was levied and add to such amount the amount of
general state aid directly attributable to school facilities weighting that was
received by the district in the same year; (2) compute 75% of the amount
of the sum obtained under (1), which computed amount is the amount the
district may levy in the first year of the three-year period for which the
district may levy a tax under authority of this subsection; (3) compute 50%
of the amount of the sum obtained under (1), which computed amount is
the amount the district may levy in the second year of the three-year period for which the district may levy a tax under authority of this subsection; and
(4) compute 25% of the amount of the sum obtained under (1), which computed amount is the amount the district may levy in the third year of the three-year period for which the district may levy a tax under authority of this subsection.

In determining the amount produced by the tax levied by the district under authority of subsection (a), the state board shall include any moneys which have been apportioned to the ancillary facilities fund of the district from taxes levied under the provisions of K.S.A. 79-5101 et seq. and 79-5118 et seq., and amendments thereto.

(c) The proceeds from the tax levied by a district under authority of this section shall be remitted to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury to the credit of the state school district finance fund.

Sec. 10. K.S.A. 72-6444 is hereby amended to read as follows: 72-6444. (a) In each school year, commencing with the 1997-98 school year, the state board shall compute a district prescribed percentage for the purpose of determining the amount of a local\textit{option operating} budget the board of a district to which the provisions of this section apply may adopt for the school year. The district prescribed percentage for each district to which the provisions of this section apply shall be computed by the state board as provided in this section. The state board shall:

(1) Determine the actual amount per pupil for the preceding school year of the general fund budget and the local\textit{option operating} budget, if any, of each district;

(2) compute the average amount per pupil for the preceding school year of general fund budgets and local\textit{option operating} budgets of districts with 75-125 enrollment in such school year;

(3) compute the average amount per pupil for the preceding school year of general fund budgets and local\textit{option operating} budgets of districts with 200-399 enrollment in such school year;

(4) compute the average amount per pupil for the preceding school year of general fund budgets and local\textit{option operating} budgets of districts with 1,800 or over enrollment in such school year;

(5) compute an average amount per pupil for the preceding school year of general fund budgets and local\textit{option operating} budgets of districts with 100-299.9 enrollment in such school year by preparing a schedule based upon an accepted mathematical formula and deriving an amount for each such district from a linear transition between the average amount per pupil computed under (2) and the average amount per pupil computed under (3);
(6) compute an average amount per pupil for the preceding school year of general fund budgets and local—option operating budgets of districts with 300-1,799.9 enrollment in such school year by preparing a schedule based upon an accepted mathematical formula and deriving an amount for each such district from a linear transition between the average amount per pupil computed under (3) and the average amount per pupil computed under (4);

(7) for districts with 0-99.9 enrollment, compare the amount determined for the district under (1) to the average amount computed under (2). If the amount determined under (1) is equal to or greater than the average amount computed under (2), the provisions of this section do not apply to the district. If the amount determined under (1) is less than the average amount computed under (2), subtract the amount determined under (1) from the amount computed under (2), multiply the remainder by enrollment of the district in the preceding school year, and divide the product by the amount of state financial aid determined for the district in the preceding school year. The quotient is the district prescribed percentage of the district;

(8) for districts with 100-299.9 enrollment, compare the amount determined for the district under (1) to the average amount computed under (5). If the amount determined under (1) is equal to or greater than the average amount computed under (5), the provisions of this section do not apply to the district. If the amount determined under (1) is less than the average amount computed under (5), subtract the amount determined under (1) from the amount computed under (5), multiply the remainder by enrollment of the district in the preceding school year, and divide the product by the amount of state financial aid determined for the district in the preceding school year. The quotient is the district prescribed percentage of the district;

(9) for districts with 300-1,799.9 enrollment, compare the amount determined for the district under (1) to the average amount computed under (6). If the amount determined under (1) is equal to or greater than the average amount computed under (6), the provisions of this section do not apply to the district. If the amount determined under (1) is less than the average amount computed under (6), subtract the amount determined under (1) from the amount computed under (6), multiply the remainder by enrollment of the district in the preceding school year, and divide the product by the amount of state financial aid determined for the district in the preceding school year. The quotient is the district prescribed percentage of the district;

(10) for districts with 1,800 or over enrollment, compare the amount determined for the district under (1) to the average amount computed under (4). If the amount determined under (1) is equal to or greater than
the average amount computed under (4), the provisions of this section do not apply to the district. If the amount determined under (1) is less than the average amount computed under (4), subtract the amount determined under (1) from the amount computed under (4), multiply the remainder by enrollment of the district in the preceding school year, and divide the product by the amount of state financial aid determined for the district in the preceding school year. The quotient is the district prescribed percentage of the district.

(b) The provisions of this section apply to any district that budgeted an amount per pupil in the preceding school year, as determined under provision (1) of subsection (a), that was less than the average amount per pupil of general fund budgets and local—option operating budgets computed by the state board under whichever of the provisions (7) through (10) of subsection (a) is applicable to the district's enrollment group.

(c) For the purposes of this section, the term "local operating budget" means "local option budget" as that term was used prior to the amendment of this section by this act.

Sec. 11. K.S.A. 2012 Supp. 72-6449 is hereby amended to read as follows: 72-6449. (a) As used in this section, "school district" or "district" means a school district authorized to make a levy under this section.

(b) The board of education of any district may levy a tax on the taxable tangible property within the district for the purpose of financing the costs incurred by the state that are attributable directly to assignment of the cost of living weighting to the enrollment of the district. There is hereby established in every school district a fund which shall be called the cost of living fund, which fund shall consist of all moneys deposited therein or transferred thereto in accordance with law. All moneys derived from a tax imposed pursuant to this section shall be credited to the cost of living fund. The proceeds from the tax levied by a district credited to the cost of living fund shall be remitted to the state treasurer in accordance with the provisions of K.S.A. 75-4215, and amendments thereto. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury to the credit of the state school district finance fund.

(c) The state board of education shall determine whether a district may levy a tax under this section as follows:

(1) Determine the statewide average appraised value of single family residences for the calendar year preceding the current school year;

(2) multiply the amount determined under (1) by 1.25;

(3) determine the average appraised value of single family residences in each school district for the calendar year preceding the current school year; and

(4) (A) subtract the amount determined under (2) from the amount
determined under (3). If the amount determined for the district under this paragraph is a positive number and the district is authorized to adopt and has adopted a local option operating budget in an amount equal to at least 28% of the state financial aid for the school district, the district qualifies for assignment of cost of living weighting and may levy a tax on the taxable tangible property of the district for the purpose of financing the costs that are attributable directly to assignment of the cost of living weighting to enrollment of the district; or

(B) as an alternative to the authority provided in paragraph (4)(A), if a district was authorized to make a levy pursuant to this section in school year 2006-2007, such district shall remain authorized to levy such tax at a rate necessary to generate revenue in the same amount generated in school year 2006-2007 if: (i) The amount determined under paragraph (4)(A) is a positive number; and (ii) the district continues to adopt a local option operating budget in an amount equal to the state prescribed percentage in effect in school year 2006-2007.

(d) No tax may be levied under this section unless the board of education adopts a resolution authorizing such a tax levy and publishes the resolution at least once in a newspaper having general circulation in the district. Except as provided by subsection (e), the resolution shall be published in substantial compliance with the following form:

Unified School District No. __________, __________________ County, Kansas.

RESOLUTION

Be It Resolved that:

The board of education of the above-named school district shall be authorized to levy an ad valorem tax in an amount not to exceed the amount necessary to finance the costs attributable directly to the assignment of cost of living weighting to the enrollment of the district. The ad valorem tax authorized by this resolution may be levied unless a petition in opposition to the same, signed by not less than 5% of the qualified electors of the school district, is filed with the county election officer of the home county of the school district within 30 days after the publication of this resolution. If a petition is filed, the county election officer shall submit the question of whether the levy of such a tax shall be authorized in accordance with the provisions of this resolution to the electors of the school district at the next general election of the school district, as is specified by the board of education of the school district.

CERTIFICATE

This is to certify that the above resolution was duly adopted by the board of education of Unified School District No. __________, __________ County, Kansas, on the ___ day of __________, (year)____.
All of the blanks in the resolution shall be filled. If no petition as specified above is filed in accordance with the provisions of the resolution, the resolution authorizing the ad valorem tax levy shall become effective. If a petition is filed as provided in the resolution, the board may notify the county election officer to submit the question of whether such tax levy shall be authorized. If the board fails to notify the county election officer within 30 days after a petition is filed, the resolution shall be deemed abandoned and of no force and effect and no like resolution shall be adopted by the board within the nine months following publication of the resolution. If a majority of the votes cast in an election conducted pursuant to this provision are in favor of the resolution, such resolution shall be effective on the date of such election. If a majority of the votes cast are not in favor of the resolution, the resolution shall be deemed of no effect and no like resolution shall be adopted by the board within the nine months following such election.

(e) In determining the amount produced by the tax levied by the district under the authority of this section, the state board shall include any moneys which have been apportioned to the cost of living fund of the district from taxes levied under the provisions of K.S.A. 79-5101 et seq. and 79-5118 et seq., and amendments thereto.

Sec. 12. K.S.A. 2012 Supp. 72-6451 is hereby amended to read as follows: 72-6451. (a) As used in this section:

(1) "School district" or "district" means a school district which: (A) Has a declining enrollment; and (B) has adopted a local option operating budget in an amount which equals at least 31% of the state financial aid for the school district at the time the district applies to the state court of tax appeals for authority to make a levy pursuant to this section.

(2) "Declining enrollment" means an enrollment which has declined in amount from that of the preceding school year.

(b) (1) (A) A school district may levy an ad valorem tax on the taxable tangible property of the district each year for a period of time not to exceed two years in an amount not to exceed the amount authorized by the state court of tax appeals under this subsection for the purpose of financing the costs incurred by the state that are directly attributable to assignment of declining enrollment weighting to enrollment of the district. The state court of tax appeals may authorize the district to make a levy which will produce an amount that is not greater than the amount of revenues lost as a result of the declining enrollment of the district. Such amount shall not exceed 5% of the general fund budget of the district in the school year in which the district applies to the state court of tax appeals for authority to make a levy pursuant to this section.

(B) As an alternative to the authority provided in paragraph (1)(A), if
a district was authorized to make a levy pursuant to this section in school
year 2006-2007, such district shall remain authorized to make a levy at a
rate necessary to generate revenue in the same amount that was generated
in school year 2007-2008 if the district adopts a local operating
budget in an amount equal to the state prescribed percentage in effect in

(2) The state court of tax appeals shall certify to the state board the
amount authorized to be produced by the levy of a tax under this section.

(3) The state board shall prescribe guidelines for the data that school
districts shall include in cases before the state court of tax appeals pursuant
to this section.

(c) A district may levy the tax authorized pursuant to this section for a
period of time not to exceed two years unless authority to make such levy
is renewed by the state court of tax appeals. The state court of tax appeals
may renew the authority to make such levy for periods of time not to
exceed two years.

(d) The state board shall provide to the state court of tax appeals such
school data and information requested by the state court of tax appeals and
any other information deemed necessary by the state board.

(e) There is hereby established in every district a fund which shall be
called the declining enrollment fund. Such fund shall consist of all moneys
deposited therein or transferred thereto according to law. The proceeds
from the tax levied by a district under authority of this section shall be
credited to the declining enrollment fund of the district. The proceeds from
the tax levied by a district credited to the declining enrollment fund shall
be remitted to the state treasurer in accordance with the provisions of
K.S.A. 75-4215, and amendments thereto. Upon receipt of each such
remittance, the state treasurer shall deposit the entire amount in the state
treasury to the credit of the state school district finance fund.

(f) In determining the amount produced by the tax levied by the
district under authority of this section, the state board shall include any
moneys which have been apportioned to the declining enrollment fund of
the district from taxes levied under the provisions of K.S.A. 79-5101 et
seq. and 79-5118 et seq., and amendments thereto.

Sec. 13. K.S.A. 2012 Supp. 72-6456 is hereby amended to read as
follows: 72-6456. (a) For the purpose of determining the general fund
budget of a school district, weightings shall not be assigned to a pupil
enrolled in and attending KAMS.

(b) Moneys in the general fund which are attributable to a pupil
enrolled in and attending KAMS shall not be included in the computation
of the local operating budget of the school district.

(c) The provisions of this section shall be part of and supplemental to
the school district finance and quality performance act.

Sec. 15. This act shall take effect and be in force from and after its publication in the statute book.
