cluded

Reason Not Included

covered under Contamination Remediation
not a primary water management activity
not a stand alone activity, in support of other research
not solely a water management activity
primary purpose is not water research or management
policy document rather than action
activity that covers general mapping and not simply water
primary purpose is not water regulation or management
primary purpose is not water regulation or management
covered by Community Development Block Grants
agency coordination rather than implementation activity
part of planning rather than independent activity
part of planning rather than independent activity
covered by Water Marketing and Water Assurance
mostly covered by Dam Permitting/Inspection
