

## **Permitting Credit Card Surcharges for Private Not-for-Profit Postsecondary Institutions; HB 2070**

**HB 2070** allows private, not-for-profit postsecondary educational institutions in Kansas to collect a surcharge on credit card payments. The Kansas Uniform Consumer Credit Code does not allow sellers to collect a surcharge on credit card payments, with certain exceptions that also include Kansas public institutions, municipal universities, community colleges, technical colleges, and vocational schools.
